EXECUTIVE SUMMARY

Since time immemorial, *Shree Shree Jagannath Mahaprabhu* is being worshipped by millions of devotees every year at the Shree Jagannath temple, a monumental and magnificent shrine at Puri, Odisha and the place is considered as great historical, social, cultural, spiritual and religious significance by the people from different parts of the world for many generations. The project “Development of Security Zone around Shree Jagannath Temple, Puri” also called “Heritage Security Zone” is being implemented by Govt. of Odisha as per one of the recommendations of **Justice Bimal Prasad Das Commission of enquiry for better administration and governance of Shree Jagannath temple and its endowments**, which was constituted in the year 2016 for better administration and Governance of the Shree Jaganath Temple in Puri. Out of several recommendations made by the commission, development of 75 metre security zone from the main compound (Megahnada Boundary) in all sides of the temple. As it is viewed by the Commission, the project is of utmost importance for the security of the temple.

CTRAN Consulting Ltd, Bhubaneswar through The SIA unit, NCDS, Bhubaneswar has been assigned the task of conducting Social Impact Assessment Study for acquisition of 15.651 acres of land in the mouza of BaseliSahi, ChudangaSahi, DolaMandapSahi-I, KalikadeviSahi, and ManikarnikaSahi. The SIA study undertook complete enumeration survey of the entire project affected families who are directly losing their land for the said projects. These families are spread in all directions within 75 metres radius of the main compound (*MegahanadPacheri*) of Jagannath temple. Apart from it, Focus Group Discussions (FGDs) were also conducted in all the five Mouzas separately to gather qualitative information pertaining to SIA study. This is to note that in the 75-metre zone, there are 373 numbers of plots consisting of 70 Government plots, 111 plots, and 192 private plots coming under five Mouzas.

Socio Economic Profile of the Project Affected Families

All of the project affected families are Hindus by religion. With respect to caste structure predominantly the PAFs are in General and OBC categories of families. In family structure the percentage share of joint and nuclear families stands at 48.2 and 51.8 percent respectively. In joint families, in an average, there are seven members per household as against the same at three persons for nuclear families. Majority of families to the extent of 98.0 percent live in their own houses and remaining 2 percent of the families live in rented accommodations. Out of the total 431 families living in their own houses, 301 household dwelling units, about 69.8 percent have constructed houses on their own lands. About 93 percent have bathrooms and toilets in their houses. About 98.3 percent of families have electricity connections in their houses. About 89.3 percent of families use piped water supply for their household uses and remaining 9.8 percent of the families depend on borewells and tube wells for their household water uses. In respect of educational qualifications majority of household members to the extent of 30.2 percent have upto primary level followed by upto secondary level of education (27.2%), Graduation (19.2%), higher secondary /intermediate (15.2%), post graduate (4.7%) and other professional courses (3.5%). Household main occupation is more skewed in favor of business and about 82.8 percent of the PAFs derive their main income from business. This is followed by temple priests/ sevayats. About 10.4

percent of the PAFs derive their main income by working as priests/ Sevayats in Shree Jagannath Temple, Puri. The average annual household income is calculated at Rs.429658.00.

Household Perceptions about the Project

About 98.2 percent of the PAFs are aware about the project. It is viewed that project activities are being carried out in a transparent manner and project authorities have undertaken all possible ways to publicise the project. Significantly, the majority of PAFs are willing to participate in the land acquisition process being planned under this project. Major livelihood issues arise because of loss of shopping space, lodging spaces, structures being used for renting out pilgrims and possible displacement. Maximum proportion of PAFs to the extent of 47.7 percent of overall families covering all mouzas will incur loss upto 80-100 percent of their present income, whereas about 18.8 percent will lose current income between the range 40-60 percent and remaining 17.7 percent in the range of 20-40 percent.

Expected Social Benefits

- Due to the creation of heritage security zone, the splendor and majestic beauty of the Temple would be enhanced and visitors can get a glimpse and enjoy the beauty from a far distance.
- Safety and security of tourists and pilgrims will be better assured. Previously, various monasteries were using adequate space for other than religious activities. Beyond that, anti-social elements were akin to forcefully encroach the space of monasteries to accomplish foul play.
- The upcoming project is aiming at conservation of the deities of the monasteries. As a result, tourists will get chances to visit the monasteries' deities during their circumnavigating the Shree Jagannath temple.
- Tourists will get a chance to view antique properties associated with different religious monasteries, if preserved in a planned museum.
- As a result of security zone project, the chances of stampedes like previously taken place during special festivals of Shree Jagannath temple can be completely averted.
- Due to such type of project, there could be traffic control in a more planned and organized manner.
- Ambulance and fire service vehicles in all exigent situations can move smoothly around Shree Jagannath temple.
- The unnecessary rush around Shree Jagannath Temple as a result of existing unplanned business activities would be prevented.
- Planned development as envisioned under the project will enhance the heritage value of the city.
- Anti-social and unscrupulous people living in different unauthorized locations near to Shree Jagannath Temple area, would be eliminated.
- As it is mentioned in the project concept note, due to the emergence of security zone project, the terrorists' activities could be detected much in advance through installation of different surveillance devices around Shree Jagannath temple. Besides positioning of special

terrorist prevention squads to safeguard the temple can be easily accomplished as and when any emergency arises.

- There is large congregation inside the temple everyday during the time of flag changing rituals, now the devotees can view the flag changing rituals clearly sitting from outside the temple.
- Problem occurs due to lack of space during “Bahuda” will be overcome by getting space near EmarMathaChokada.
- Queue system for devotees at the time of large congregation can be effectively managed by getting large space around the temple.

Expected Social Costs

- Some of the Monasteries as explained by their Mahantas were affected by the “Security Project”. they should be well compensated and suitably rehabilitated. Their inmates should also be provided with Vedic and Sanskrit education free of cost.
- “Gosalas” currently functioning in some of the monasteries are likely to face inconveniences as they explained. So, alternative arrangements for “Gosalas” should be expeditiously functional.

Expected Economic Benefits

- As a result of beautification and cleanliness around Shree Jagannath temple, there shall be more tourists’ footfall and consequently there will be more generation of income for the families engaged as tourists’-based service providers.
- It is viewed that the new market complex planned as a part of heritage conservation project will be one of the suitable and hassle-free marketing places in the city by which sellers as well as buyers would be benefitted immensely.
- There will be more Income generation and economic condition of local business man, Bojhias, Sebaks will increase due to more inflow of devotees.
- Distribution of Mahaprasad shall be made in a planned & hygienic manner.
- Promotion and products done by local artisans will improve due to inflow of more tourists.
- Provision of shoes stand/Locker facility by getting space around temple for devotees will solve the long-standing issues of devotees.

Expected Economic Costs

- Due to dismantling of lodges in the 75 metre zone, there may be shortage of lodging space in the short run until all lodges get fully restructured at alternative places as briefed by the local Public.
- The owners of the lodge should be well compensated for the building as well as land. Besides, space for reconstruction of lodges should be provided.
- The proposal for construction of pilgrim shelters nearest to the Jagannath Temple should also be planned by the Government.

Expected Cultural Benefits

- The main boundary Wall of Shree Jagannath temple (MeghanadPachery), would be more visible to the public and pilgrims which was not previously eye-catching to them.

- The historical importance and cultural significance of MeghanadPacheri would be realized by the visitors through seeing its artistic majesty, grandeur beauty and gigantic structure.
- Owing to more area around Shree Jaganath temple, tourists and pilgrims can spend more quality time which was not possible previously due to congestion and heavy crowd.
- Due to more open and free space around Shree Jagannath temple, cultural programme like “Bhajan Sandyas”, “Odishi Dance” etc. on special festivals could be better celebrated.
- Toilet, drainage facility for devotees will improve the hygienic condition around the temple area.

Expected Cultural Costs

- Ritual based head shavings are done outside the temple premises from western as well as southern sides.
- Till getting alternative places for the said purpose, there may be temporary inconveniencies.
- There should be provision for the creation of a separate venue for this purpose.
- There should also be facilities like water and sitting arrangements.

Expected Environmental Benefits

- The project emphasizes dedicated Solid Waste Management Plan which would help to get rid of unhygienic situation in the vicinity of temple area.
- Apart from it, there will not be water logging around temple areas.
- Due to the upcoming project, there would be more cleanliness around Shree Jagannatha Temple, Puri.
- The outsiders’ impressions with regard to the cleanliness in the vicinity of Shree Jagannath temple would be better promoted.
- Due to possible decongestion around the temple area as a result of the coming project, people will feel relaxed at the temple area.

Expected Environmental Costs

- After 75-meter security zone, and consequently to be built up concrete area is expected to emit more heat in temple surroundings, as pointed out by the local inhabitants.
- It is proposed that there should be mini plantations with mini park as well as eco-friendly and tourist-friendly facilities should be created which will be a better environment conservation practice in the iconic city,Puri.

CHAPTER-I:INTRODUCTION

1.1 Background

Since time immemorial, *Shree Shree Jagannath Mahaprabhu* is being worshipped by millions of devotees every year at the Shree Jagannath temple, a monumental and magnificent shrine at Puri, Odisha and the place is considered of great historical, social, cultural, spiritual and religious significance by the people from many parts of the world for generations after generations. The temple was built by a famous king of Ganga Dynasty Ananta Varman Chodaganga Deva dating back to 12th century. Adi Sankaracharya (9th century AD), the great profounder of the Aditivavada, sanctified the place by establishing a monastery called GobardhanMatha. Subsequently, several saints and philosophers, like Ramanuja (12th century AD), Madhavatirtha (13th century AD), Naraharitirtha, Sankaradeva, Nanak, Kabir, Chaitanya, Ballav Bhatta, Ramachandra Puri, ParamanandaPuri visited and further sanctified the place through their preaching and left their imprints in the monasteries and ashramas that they established. Recorded history reveals that from the time of the Somavamsis (11th century AD), all ruling dynasties have extended liberal patronage for the growth and development of this area.

As per Hindu traditions, it is one of the four religious *Dhams* (holiest of holy places), and other *dhams* include Dwarika, Badrinath & Rameswar. Number of festivals like *Snana Yatra*, *Netrotsava*, *Ratha Yatra (car festival)*, *SayanEkadasi*, *ChitalagiAmabasya*, *SrikrushnaJanma*, *Dussehra* etc. is observed in the temple. However, the most important annual festival is the World famous Rath Yatra (Car Festival) & Bahuda Yatra. A large crowd gather to witness Lord Jagannath during this festival. Apart from these festivals, special festivals like *Nabakalebar* and *Nagarjuna Besa* etc are organized every few years' intervals. Keeping in view, the tourist's footfall pressures in the temples on special occasions and to broaden the security base of the temple, an ambitious project of "Development of Security Zone around Shree Jagannath Temple" is being undertaken by the Govt. of Odisha.

1.2 Development of Security Zone around Shree Jagannath Temple, Puri.

The project "Development of Security Zone around Shree Jagannath Temple, Puri" also called "Heritage Security Zone" is being implemented by Govt. of Odisha as per one of the recommendations of **Justice Bimal Prasad Das Commission of enquiry for better administration and governance of Shree Jagannath temple and its endowments**, which was constituted in the year 2016 for better administration and Governance of the Shree Jaganath Temple in Puri. Out of several recommendations made by the commission, development of 75 metre security zone from the main

compound (MegahnadaBoundary) in all sides of the temple is of utmost importance for the security of the temple it was one of the key strategic recommendations.¹ This zone is also having the vision

to accommodate idols of gods and demigods, plants and shrubs linked to the Jagannath cult, art and artefacts and a place of offerings with further beautification within the buffer zone. The project is also having the aim at utilising some land on the vicinity of Emaar Mutt for a new building to house Raghunandan Library. Raghunandan Library is to be developed with heritage architecture. This place is to be a centre on research on Jagannath culture.² Heritage Security Zone is a part of the broader Heritage city Project which also covers Shree Setu Project from Bypass Road to Jagannath Ballav Mutt and Musa River Revival Plan and Housing Projects for those affected by the Development of Puri.³ Earlier in this direction, the State Government of Odisha had launched Augmentation of Basic Amenities and Development of Heritage and Architecture (ABADHA) Scheme in 2017-18 with

the objective of providing better and affordable services to pilgrims and tourists and to protect the shrine from all possible threats and to ensure safety and security to pilgrims.⁴

It is in this background, to materialize the project, all structures falling under this zone are planned to be cleared by acquiring lands under public and private ownership as per the provisions of RFCTLAR & R Act, 2013. Some of the structures like “Emar Matha” which are not properly maintained and not secured for any type of use are already demolished under the said development project. Comprehensive Development Plan -PKDA 2031 also remarks on some of these issues- Majority of Mathas are poorly maintained and not having adequate infrastructure which needs to be upgraded and redeveloped to revive heritage value. The various heritage structures are not linked with each other not leading to an integrated heritage package for tourists. There is very little information about many structures available for tourists due to lack of promotional activities. Ill-defined activities in the heritage sites reducing the cultural values in the sites. Many of the open spaces inside the Akhadas and Mathas are now-a-days used by anti-socials during normal season which must be taken care of for safe tourist site development. Overall investment and institutional structure must be developed for regeneration of these heritage sites which is currently missing.⁵

1.3 About the Assignment

The SIA unit, NCDS, Bhubaneswar has assigned the task of conducting Social Impact Assessment Study for acquisition of 15.651 acres of land for land “Development of Security Zone around Shree Jagannath Temple, Puri”. The streets are BaseliSahi, ChudangaSahi, DolaMandapSahi-I, KalikadeviSahi, and ManikarnikaSahi. Accordingly, SIA has been conducted among 440 project affected families.⁶ The notification pertaining to the said SIA study came out on 24th September 2019.⁷ Team of researchers from CTRAN were mobilized by NCDS for this exercise.

⁷ No- RDM-LAA-Puri-0004-2019 R &DM, dated 24 Sept 2019.

1.4 Scope of the Study

1.5 Objectives of the SIA

The broad objectives of the study are as per the following.

- To assess whether the proposed land acquisition serves public purpose.
- To assess the number of affected families, magnitude of loss of land assets based on the actual holdings of the families, magnitude of loss of land holdings, extent of displacement of families in terms of physical displacement and occupational displacement.
- To assess the type of lands-public and private, house settlements and other common properties likely to be affected by the proposed acquisition.
- To examine whether the proposed land acquisition is bare minimum necessity for commissioning the proposed project.
- To study the socio-economic, cultural and environmental impacts of the project by covering both direct land loser families as well as indirectly affected families.
- To suggest remedial intervention measures by designing appropriate policies and programmes through SIMP and Mitigation Plan.

1.6 Social Impact Assessment (SIA): A Brief Conceptualization

In India, SIAs are mandated by The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RFCTLARR, 2013). Prior to this law, land acquisition was controlled by the Land Acquisition Act of 1894, passed when India was still a colony.

- According to the 2013 land acquisition law, any major development project is required to conduct an SIA within six months of the project's start date. The study must be publicly displayed and available in the local language (beyond India's two official languages, English and Hindi, there are many sub-national languages). For projects that involve land acquisitions, developers need to acquire consent for a majority of local landowners: consent from 80 percent of affected landowners is required for private projects, and consent from 70 percent is required for public-private partnership projects.
- There were two important reasons behind the passing of the land acquisition law in 2013: to decrease social unrest over uncompensated land acquisition and to speed up the execution of development projects. Through mandating SIAs, the government sought to ensure that locals receive proper resettlement packages and that developers constructively engage with local communities.
- Social Impacts are the changes that occur in communities or to individuals as a result of an externally-induced change. Changes may affect: employment, income, production, way of life, culture, community, political systems, environment, health and well-being, personal and property rights, and fears and aspirations. These impacts can be positive or negative. In short, a social impact is a significant improvement or deterioration in people's well-being.
- Projects affect different groups differently. Some people tend to benefit, others lose. Often, impacts are particularly severe for vulnerable groups: tribal people, women-headed families, elderly persons, landless persons, and the poor.
- An Initial Social Impact Assessment (ISIA) is carried out if the project impacts are likely to be minor or limited, which can be easily predicted and evaluated, and for which mitigation measures can also be prescribed easily. Generally, information for ISIA is obtained during a field visit to areas that will be affected by the project and through discussions with people whom it may affect positively or otherwise.
- The SIA is also done to confirm whether this indeed requires a full-scale Social Impact Assessment (SIA). Usually a comprehensive SIA is required for large projects, which entails a more detailed study, time, and resources. The World Bank, ADB, IFC, UNDP, as well as most multilateral and private agencies, including commercial banks, require some kind of prior social impact assessment for all the projects that they finance. However, the issue is no longer whether SIA should be carried out or not, but how it should be carried out so that the local people benefit from the project and not lose from it.
- As per "The Right to Fair Compensation and transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 with Odisha Rules, social impact assessment and public hearing are mandatory for any land to be acquired by the government for a public purpose. For this purpose, as the case may be, SIAs are to be done in consultation with Gram Panchayat, the Ward or village level.
- Further to note that the notification issued by the appropriate Government for commitment of consultation and the Social Impact Assessment (SIA) study shall be made available in the local language and uploaded on the website.

- The appropriate Government shall ensure that adequate representation has been given to the representatives of Gram Panchayat, Gram Sabha as the case may be at the state of carrying out the social impact assessment study.

1.7 The Odisha Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Rules, 2016

In exercise of the powers conferred by sub-section (1) of Section 109 of the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 the Government of Odisha has framed "The Odisha Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Rules, 2016" (Rules 2016). The State Government has established NCDS an independent organization as the State SIA Unit which is responsible for ensuring that the SIA study is conducted as per the provisions of the Act. The

SIA Unit has to engage an agency or individual to conduct the study. Summary of RFLARR Act, 2013, Odisha rules, 2016 is furnished in the box given alongside.

- Rule 6: Constitution of the State Social Impact Assessment (SIA) unit
- Rule 8: State Government to rectify for carrying out SIA study.
- Rule 9: Conducting of the SIA study in consultation with the concerned Panchayats/ wards.
- Rule 10: Selection of the SIA Team
- Rule 11: Process of conducting SIA
- Rule 12: SIMP to including R&R Entitlement matrix
- Rule 17: SIMP to include Development plan in case of acquisition on scheduled areas
- Rule 14: Process of conducting Public hearing in Gram Sabhas on the findings of SIA
- Rule 15: Publications of SIA Report and SIMP

1.8 Study Methodology

With the objective of "Development of Security Zone around Shree Jagannath Temple, Puri", it is planned to acquire 15.651 acres of land under private as well as Govt. ownership. The SIA study undertook complete enumeration survey of all the project affected families who are directly losing their land for the said projects. Altogether there are 440 directly project affected families(PAFs) covered under the SIA by following 'Complete Enumeration Survey' of all the project affected

families. These families are spread in all directions within 75 metres radius of the main compound (*Megahanad Pacheri*) of Jagannath temple. There are five Mouzas which include BaseliSahi, ChudangaSahi, DolamandapSahi No-1, KalikadeviSahi and ManikarnikaSahi within the 75 metres jurisdiction from *MeghanadPacheri*. The details of the families covered under the SIA study, is as per the following table. For the purpose of the SIA study, Household survey was undertaken for all the PAFs. Apart from it, Focus Group Discussions (FGDs) were also conducted in all the five streets separately to gather qualitative information pertaining to SIA study. This is to note that there are 373 numbers of plots consisting of 70 Government plots, 111 plots, and 192 private plots coming under five Mouzas as shown in Table-3. The details of public hearing meeting are incorporated in the report after preparing the proceedings of the Public Hearing Meeting held on 9th October 2020.

Table 2: Land Acquisition as per SIA Notification

Sl. No	Area as per SIA Notification			Additional area acquired			Grand Total	
	Name of Mouza	Private Land	Govt. Land	Total Land	Private Land	Govt. Land		Total Land
1	BaseliSahi	3.028	0.64	3.668	0.304	0.0	0.304	3.972
2	ManikarnikaSahi	3.627	0.133	3.76	0.008	0.0	0.008	3.768

Total		70	111	192	373

1.9 Team Structure

	Mr Sankarshan Patra, GIS Expert-cum- Field Manager	Mr Sarat Ku Pradhan, Mr Sunil Kumar Mishra, Mr Manoj Ku. S. Goswami, Mr Sujit Kumar Mohanty (Research Investigators)
Dr Radhakrushna Panda, Team Leader	Mr Upendra Kumar Panda, Field Manager	Mr Tapas Ku. Kandi, Mr Satya Ranjan Sahoo, Mr Tapas Ku Barik, Mr Biswaranjan Das (Research Investigators)
	Mr Maguni Charan Sahu, Field Manager	Mr Pravat Ku. Das, Mr Debadutta Sahu, Mr Biswambar Praharaj, Mr Satyabratta Nayak (Reserach Investigators)

1.10 Definitions Used

The following terms, words and phrases have been referred to and used in this SIA study to design SIA report including SIMP and entitlement frame-work, though, some of the terms are indicated in the Act and Rules. For the purpose of relevance and importance all relevant definitions, words, terms and phrases are furnished below.

- **Act** means the Right to Fair Compensation and Transparency in land Acquisition, Rehabilitation and Resettlement Act, 2013.
- **Acquisition of lands** means the land(s) proposed to be acquired under the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 for the MGR and CBS and under the prevailing Rules and Orders framed by Government of Odisha.
- **Administrator** means an officer appointed for the purpose of rehabilitation and resettlement of affected families under sub-section (1) of section 43 of the Act.
- **Affected Area** means such area as notified by the Government of Odisha under the relevant land acquisition Acts for the purposes of land acquisition for the Project;
- **Affected family** including project affected family that means a family whose land or other immovable property has been acquired for the purpose of the said development project.
- **Compensation** refers to the amount paid as compensation under various provisions of the Act 2013, for private property, structures and other assets acquired for the project,

excluding rehabilitation and resettlement entitlements as per this policy.

- **Cost of acquisition** means and includes (i) amount of compensation, (ii) demurrage (iii) cost of land and building for settlement displaced or adversely affected families, (iv) cost of development of infrastructure and amenities at the resettlement areas, (v) cost of R&R, (vi) administrative cost and (vii) cost of undertaking the SIA study.
- **Cut-off Date** is the date of Notification under Section 11(1) of Act, 2013.
- **Displaced Family** means any affected family, who on account of the proposed acquisition of land has to be relocated from the affected area; a family whose primary place of residence or other property or source of livelihood is adversely affected by the acquisition of land for the Project any tenure holder, tenant, lessee or owner of other property, who on account of the proposed acquisition of land in the affected area, has been involuntarily displaced from such land or other property; any agricultural or non-agricultural labourer, landless person (not having homestead land or agricultural land) rural artisan, small trader or self-employed person; who has been residing or engaged in any trade, business, occupation or vocation in the acquired land, and who has been deprived of earning his livelihood or alienated wholly or substantially from the main source of his trade, business, occupation or vocation because of the proposed acquisition of land in the affected area.
- **Land acquisition** means acquisition of land under the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 or any other prevailing Government of Odisha Rules and Orders.
- **Landless** means the landless person as defined in the Odisha Prevention of Land Encroachment Act 1972.
- **Rehabilitation and Resettlement (R&R)** means carrying out rehabilitation and resettlement as per Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 or as per any other law in force as may be applicable for rehabilitation and resettlement benefits to be provided to the affected families.
- **R&R Entitlements** means the benefits awarded as per the R&R Framework given in the Policy on Rehabilitation & Resettlement and as subsequently approved by the Government of Odisha.

CHAPTER-II: PURI- A HERITAGE CITY

Shree Jagannath Temple, Puri is widely believed as an iconic heritage of the whole world. Its historical and architectural antiquities, religious sanctuaries, rich culture, colourful social life, architectural grandeur etc put the place under grand heritage. A number of references about this heritage site are found in the Puranas and other ancient scriptures indicating the existence and importance of Puri as early as the 4th Century C.E. The ancient port of Puri was a prominent participant in the maritime trading activity that occurred in the Eastern coast of India from the 3rd century B. C.E. to the 3rd century C.E. During the 7th and 8th centuries, Puri also served as a provincial outpost that linked Eastern India with South India. After the establishment of the Jagannatha Temple in 12th century C.E., the spiritual facets of Puri were revitalized and gained supremacy as centre of pilgrimage. The place is also known as 'Srikshetra', Jagannath Puri situated on the beach of 'Mahodadhi', Bay of Bengal. It is one of the seven most holy places for Hindus in India. The other places being Ayodhya, Mathura, Gaya, Kasi, Kanchi, Avantika, Puri, and Dvaravati.⁸ Sustaining the rich heritage of the city is very much important in view of its socio-cultural, economic and environmental significance.

2.1 Religious Significance

The place is believed to be the confluence of major religions. Owing to its religious association with Sankaracharya, Puri became one of the centres for the practice of reformed Hinduism in the 8th Century.⁹ In legends, it is connected to the epic Mahabharata. When funeral fires failed to consume Krishna's dead body, then directed by the Gods of heaven, Arjuna placed the body

on sea. Floating in the form of a log, the body travelled for thousands of years from Dwarka on the Western Coast to the Eastern shores of the country, where it was found by Indradyumna, King of

⁸ Odisha District Gazetteers, Puri

⁹ IPE Global, "City Hriday Plan"

Malava.¹⁰The place is also mentioned as “PurusottamKshetra” in Rig-Veda. The soul of living heritage of Puri culture is Lord Jagannath, the presiding deity of Sri Mandir or Jagannath Temple.

Mythologically, the city is believed to have been planned in the shape of conch or “Sankhakshetra”. This area is about five Koshas (10 miles) in extent of which nearly two koshas are submerged in the sea. In the centre of the kshetra lies Jagannath temple on a hillock called Nilagiri with eight Shiva temples guarding the eight quarters radiating from it the hillocks called Nilagiri. Bada Danda connecting to Sri Gundicha Temple forms the Spine of the shankha. The broad end of the Sahnkakshetra lies to the west where the temple of Loknath is located and on the apical end or tail end in the east is located the temple of Nilakantha.¹¹Puri the major urban centre is more than thousand years old and is a religious town. The town is based on Vaastu Purusha Mandala with many meta-physical aspects interwoven in the planning of the town.

The city with its 3km. long Grand Road (Badadanda), 7 km. long Beach front, ancient lanes and by lanes with sacred tanks like Sweta Ganga, Markandeya, Narendra and Indradyumna shows the characteristics of a Tirtha Kshetra. The ancient Saivite temples such as Jameswara, Lokanatha and Kapalamochana form the inner circle of the Sankha Kshetra. The Vaisnavite temples such as Yagnya Narasimha, Gundicha Temple, Chakra Narayana, Chakra Narasimha, SunarGouranga and Tota Gopinath are also located in the strategic places of the Sankha Kshetra. As a great Sakti Pitha the city has the temples of Dakhina Kali, Shyama Kali, Ramachandi, Marichi, Ardhasini and many others. Besides, there are a number of Mathas and Ashramas spread over the city. All these temples and monuments are part of the heritage components, which uphold the long tradition of Hindu culture. All these monuments and temples are regarded as great heritage sites.

2.2 Socio-Cultural Significance

Puri and Lord Jagannath manifest a confluence of cultures. Puri is a city of heritage and its unique identity is associated with Lord Jagannath (Lord of the Universe). It is the place where amalgamation of many cultures, traditions can be seen. The origin of the term Lord Jagannath and Puri Jagannath Dham is attributed to the Vedas (an oral tradition¹²) and later to Ramayan and Mahabharat (written tradition). While the current temple which has been reconstructed by King Ananga Bhima Deva of Ganga Dynasty is believed to be around 12th Century (1197)¹³, the earlier temple constructed by Lord Indradyumna is believed to be much older (more than 3000 years old). Claiming its origin from the worshipping tribes (sabar), it has linkages to Buddhism (Jagannath is considered Bhairav as per the Buddhist tradition) and the chariot celebration that figure in the write up Fa Hien (though Mahabharat and Ramayan have description of Chariots as well), to Jainism (King Kharvela contributing to the development of the area¹⁴). It also has several inscriptions to link the

¹⁴As per the analysis of Pandit Nilakantha Das, King Kharvel who is a Jain was involved in the temple and area development.

place to Saivaite tradition (Jagannath MahaBhairav), Shakta Tradition (Goddess Vimala acting as Bhairavi and Goddess Subhadra as parashakti), Ganapatya and Sourya Traditions.

After the Bhakti Movement, this place has a dominant Vaishnavite hue. Puri is one of the four famous Dhams, others being Badrinath in the North, Dwaraka in the West and Rameswaram in the South. It was recognized by Adi Shankaracharya as one of the eminent places of pilgrimage in the eighth century A.D. Puri assumed more and more importance as great Vaishnava Acharyas like Sri Ramanuja, Sri Vishnuswami, Sri Nimbark and Sri Madhavacharya visited this place. Subsequently, it was also visited by great saints of various religious communities namely Nanak, Kabir and Sri Chaitanya, etc. Bhakta Salbega a Muslim poet and panchasakhas, poet Jaydev made this place their home and devoted their writings to evolve a rich literary tradition around the temple and the deity. Adikabi Sarala Das who was a courtesan in GajapatiKapilendra Dev's court wrote Mahabharat in simple Odia as a break from Sanskrit dominance and later Jagannath Das wrote Bhagabat to bring in strong local language and traditions. The district of Puri carries a long tradition of music and dance. The Odia art, literature and music are influenced immensely by Sri Jagannath Culture. The traditional Mahari dance having its origin in now Devadasi culture, the Odishi dance¹⁵. Gotipua dance is another form of dance in Puri performed by boys and marital dance/skills in jaga/akhada in shahis form its unique culture. Classical songs, are mostly developed under the influence of Lord Jagannath and His favorite lyrics of Geeta Govind composed by the immortal poet Jayadev. Many poems and fictions are also written under the influence of Sri Jagannath culture. A lot of folk tales, folk songs, proverbs Chautisas, etc. are also influenced by Sri Jagannath culture.

The temple has its unique mode of operation codified in the almanac- MadalaPanji. The world-famous car festival, the sweeping ritual by Gajapati (as the main servitor depicting equality and humility), the 36 services and the duties of various servitors, the offerings and festivals are vividly documented in this almanac. Car festival draws millions of devotees from nooks and corners of the world from many caste and creed every year. The car festival which originates from main temple (Sri Mandir) traverses through the Grand Road to Mausima temple. Therefore, the maintenance of this road and its drainage/septage system is very important from cultural point of view. Apart from Car festival, there are 12 festivals unique to the temple such as (1) Snan Purnima (2) Gundicha/car festival (3) Sayan Purnima (4) PraswaParibartna (5) Odhansasthi (6) Uthapan (important for fasting habisa community) (7) Pusa Purnima (having roots in harvest and tribal traditions in western Odisha) (8) Holi and Dola Purnima (9) Damanak Yatra (10) Chandan Yatra (11) Uttarayan or Makar Sankranti (having strong links to South India) (12) Dakhinayan yatra. In addition, there is ritual of NabaKalebar in every 12 years mimicking the certainty of life-death and re-birth whoever is born in earth including the deities. These rituals draw devotees every day who flock to this place year-round.

While the visitors enter and exit from different doors of the temple, the prescribed tradition is to enter through Singhadwar, move towards east to Agniswar, then Pataleswar in north (temples in between), and enter through the northern door to circle around Garuda stambh to see the deities on Ratna Bedi in sanctum sanctorum. However, the situation has been very chaotic as of now and it requires orderly entry and exist string from the Grand Road corridor. Similarly, there is a prescribed

¹⁵ Odishi has a tradition of 2,000 years, and finds mention in the Natyashastra of Bharatamuni, possibly written circa 200 BCE.

way to move around the outer wall of the temple. After washing the feet at Aruna Stambh move from Singhadwara to Pejanala, Durgamadhav Temple, Bhagavati Temple and return to Singhadwar. The outer wall which was constructed by King Kapilendra Dev in 13th Century to save the temple from invaders has become weak and till now serves as the first line of defense to the temple. There is also a panchakosi parikrama¹⁶ codified for traversing the Srikshetra, this is from Singhadwar to Swargadwar, then Srilokanath temple, then Jameswar to Mangala ghat, then to Alamchandi (Atharnala) moving towards Bilweswar, then Chakratirth and then Swargadwar to Singhadwar. This is alternatively called Sankhatirtha Parikrama and has deep religious significance. However, due to encroachment and congestion, road restrictions and construction, it is almost impossible to conduct this ritual.

In respect of the safety and tradition of Lord Jagannath Temple, the then collector Mr. Gomes had prepared a report to the then British Government in the year 1803. A request had been made in that report for maintaining the safety of the rituals and traditions regarding the Seva or Puja of Lord Jagannath, which has been continuing till date. There are 248 Sevas mentioned in that report. Each and every sevayat is more active, careful and punctual in the safety and right performance of their duties by taking into their minds about their creation and existence.¹⁷

Pandas are considered to be the Tirthagurus. The Pandas have played an important role by visiting different parts of India, preaching the philosophy and doctrine of Jagannath Cult among the Hindus; collecting pilgrims and escorting them to Puri. They are also responsible for providing lodging and boarding to them in Dharmasalas at Puri and arranging a Darshan of Lord Jagannatha for them and visiting to different sacred centers and Tirthas located in the town and in its vicinity. Most often some outsiders can't come to Puri owing to their monetary problems and other difficulties, but the Pandas meet them in their houses to bless them even without collecting any type of charge from them. Pandas give them Mahaprasad and Photo of Jagannath Mahaprabhu and other souvenirs linked with Shree Jagannath temple. The system is still in vogue.¹⁸

It has several water bodies of religious significance including the Bay of Bengal termed as Mahodadhi (the abode of Lord Vishnu in deep slumber). It also has mathas and ashrams having their origin in different religions.

2.3 Economic significance

Puri is part of the golden triangle. It has heavy tourist foot-falls. However, due to congestion and lack of proper infrastructure and sanitation its tourist potential has been under-achieved. It has rich craft tradition. The stone work and Pattachitras of Raghurajpur, applique work at Pipili and Pattachitras have strong demand from tourists. Most of these are temple art forms but have re-invented itself with modern tastes and forms. Palm leaf paintings are very ancient in Odisha and are still in demand.

¹⁶Jagannath Tatwa Ratnabali

¹⁷ Khuntia Somanath (2008): "The Panda System", Cultural Heritage of Puri, State Level Vyas Kabi Fakir Mohan Smriti Sansad, Bhubaneswar. PP-366-375

¹⁸Patnaik sunil Kumar (2004):" Heritage Tourism: Places of Tourists' Importance in Puri", Orissa Review, September.

Now a day's sand art popularized by several internationally acclaimed artists has made the place attractive.

The Puri beach is one of the best beaches in eastern region. The marine drive leading from Konark to Puri is a place of tourist attraction. Several areas for ayurvedic centers and surfing areas have been identified and has got tourist potential.

Puri is a place of culinary delight starting from the Mahaprasad (grand offering to deities in the temple) to various local cuisines. The deities relish 56 items and sweetmeats spread over six times (dhupas): (1) Gopal Ballav (2) Morning Dhupa (3) Bhaanda Dhupa/Chhatar Bhoga (4) Madhyahn Dhupa (5) Sandhya Dhupa (6) Bada Singhar Dhupa. There is also evidence of Odisha rasagola which has GI tag to be offered once to placate Goddess Laxmi. In addition to that there are several non-vegetarian sea foods joints, Bengali, South Indian and Marwari restaurants are located in the city to cater to regional tourist tastes.

2.4 Ecological and environmental significance

Due to climate change, Odisha is most vulnerable to rise in sea-level; a meter of sea-level rise here will inundate about 800 sq. km of adjoining landmass. Moreover, it will affect the drainage and hydrology of the entire region if proper land use planning and mangrove restoration (whose areas have shrunk to 1/5th in last 50 years) is not undertaken in time. Rise in temperature with humidity will also create heat stress and make the place unattractive if orderly development, greening the city with plantations are not taken up. Being a heritage city, due to heavy footfalls, the use within these sites and their 'pull factor' are also far beyond the carrying capacities of the site and results in inverse expansion. As a result, the demand on the city infrastructure is stretched far beyond its carrying capacity, be it drainage, septage, water supply or sanitation. The city is also in the cyclone path and several low-lying areas are flood prone. During cyclone, the power supply system is usually crippled and takes days together to restore. The buffer areas around heritage sites are defined for the purpose of de-congesting sites and are regulated by law (for state and ASI protected sites). However, its implementation on ground on account of several socio-economic and political, factors may affect the long-term sustainability of this important city if urgent actions are not taken.

2.5 Security Significance

Puri Srimandir is considered to be one of the supreme religious institutions of the country. It has been a target of invaders from politico-religious point of view from many years. Despite its syncretic traditions the Muslim invaders 1st attacked the temple during the rule of King Mukund Dev in 1509. It caused widespread destructions to Srimandir (led by a General named as Kala Pahadas written in Madala Panji) and various temples in Puri and servitors quietly shifted the deity to Chilka. In 1565 Afghan king Suleman Ghazni plundered the temple and King Mukund Dev was also attained martyrdom. In 1575 emperor Akbar occupied Odisha, defeating the Afghan rulers. He appointed Ramachandra Dev of Bhoi dynasty and got back the deities to temple after NabaKalebar. During 1751-1803 AD Odisha was under Maratha rule and they helped in further development of temple

infrastructure. From 1803 Odisha was under British rule and they tried proselytization and also sent Gajapati to Andaman prison. But their interference in temple affairs was not much.

After independence the temple administration constituted under Jagannath Temple Act are responsible for the day to day temple management. During the intervening period there have been several instances of threat perceptions to the temple from jihadi elements and even Maoist cadres. The latest input from IB was in August 2019 warning the administration from some sea borne terrorists. It was also learnt that two members of the Indian Mujahideen (IM), and LeT wing, came to Bhubaneswar in 2014-15 to do the recce for the temples in Puri and Bhubaneswar and to provide logistical support to the groups (about 4 in number) of Pakistan-based Jamaat-ud-Dawa (JuD), Jaish-e-Mohammad (JeM) and Hizbul Mujahideen (HM) for terror strike. In June 2012, there was intelligence inputs from Assam warning that that elements from LeT were to plan an attack in Bahuda Yatra festival in Puri. Government has been on high alert to counter these threats and several check posts and marine police stations have been strengthened and one ADG rank officer has been made responsible for coastal security. Moreover NSG (Hyderabad hub) has already conducted a drill in August 2017 at the temple.

Considering these aspects, it is important to have layered perimeter security, biometric identification gates and CCTV surveillance around the temple with a state-of-the-art incident control system to neutralize such threats from enemies. Any attack on the temple has potential for raid communal conflagration across the country. For these, proper databases of hotels, lodges, occupants of shops and other establishments around the temple are needed. Isolation and evacuation zones, crowd control area to reduce the probability of stampede which need to be planned.

History of Security Breaches and Invasion of Shree Jagannath Temple, Puri

Throughout the ages the temple of Lord Jagannath, Puri had been invaded and plundered for eighteen times.

- *The invasion of Raktavahu on the temple of Lord Jagannath is considered as the first one as per the record of the 'Madalapanji', the temple chronicle.*
- *The second invasion on the temple of Lord Jagannath was waged by Illias Shah the Sultan of Bengal in 1340 A.D. during the reign of Narasinghadeva-III.*
- *During the reign of the Ganga King Bhanudeva III the third invasion took place in 1360 AD by Feroz Shah Tughluq, the Muslim ruler of Delhi.*
- *The fourth invasion was launched by Ismail Ghazi the commander of Allauddin Hussain Shah the Sultan of Bengal in the year 1509 A.D.*
- *The fifth invasion was launched by a Muslim invader Kalapahara in the year 1568 AD during the reign of MukundadevaHarichandan, the Chalukya King of Orissa.*
- *The sixth invasion jointly waged on the temple of Jagannath in 1592 A.D. by Suleman, the son of Kuthu Khan and Osman, the son of Isha (ruler of Orissa).*
- *During the reign of Purushottamadeva of Bhoi Dynasty Mirza Khurum, the commander of Islam Khan the Nawab of Bengal invaded Puri in 1601 A.D which is considered as the 7th attack on the temple of Lord Jagannath.*
- *'Madalapanji' Mirza Khurum invaded Puri temple during the time of Dola Yatra. He found no deities in the temple and so looted the underground treasury. Hasim Khan, the Subedar of Orissa waged the eighth invasion on the great temple of Lord Jagannath at Puri.*
- *The ninth invasion on the temple of Jagannath was launched by a Hindu Rajput JagirdarKesodasmaru in 1610 A.D.*
- *Kesodasmaru plundered crores of treasury of the temple of Jagannath between 1611 to 1617 AD.*
- *Kalyan Mall is known to have attacked on Puri temple and also looted its treasure.*
- *Mukarram Khan waged the 12th attack on the temple of Lord Jagannath in 1617 A.D.*
- *Thirteenth invasion on the temple of Jagannath was launched by Mirza Ahmad Beg, the nephew of Moghul empress Nurjahan.*
- *The invasion of Amir Mutaquad Khan alias Mirza Makki is considered as fourteenth one. Mirza Makki became the new Governor of Orissa and ruled till 1641 A.D. Mirzamakki invaded the Jagannath temple for two times. His commander plundered the temple and the old palace at Balisahi. The invasion took place in the year 1645 A.D.*
- *The fifteenth invasion was waged by Amir Fateh Khan in 1647 A.D. He attacked the temple and plundered valuable gems like diamond, pearl and gold etc.*
- *In 1692 A.D. Aurangzeb the Moghul emperor issued an order to destroy the temple of Lord Jagannath. At that time Divyasingha Deva was the king of Khurda. Ekram Khan was the Nawab of Orissa who waged this invasion on the temple with the help of his brother Mastram Khan. The Nawab entered the temple and climbed to the - golden throne of Jagannath. The treasure of the temple was looted. This was the sixteenth invasion on the temple of Lord Jagannath.*
- *Muhammad Taqi Khan became Naib Nazim (Deputy Subedar) of Orissa from A.D. 1727 to 1734. During his time, he invaded the temple of Jagannath for two times in 1731 A.D. and 1733 A.D.*

Chapter-III: Socio Economic Condition of the Project Affected Families

In relation to the land acquisition for the said projects, the entire project affected families. As a part of undertaking SIA exercise, a complete enumeration survey using structured questionnaires was undertaken. On the basis of quantitative information obtained from that survey, a detailed socio-economic baseline of the project affected families is analyzed in this chapter. For definitional point of view, all the families whose lands and housing properties are planned to be acquired for the project are project affected families. Further, by considering RFCTLR & R Act, 2013, all eligible household members are treated as extended families. The extended household members are appropriately considered in the Rehabilitation and Resettlement Entitlement Matrix annexed herewith.

3.1 Religion and Caste

All of the project affected families arising out of security zone development project are Hindus by religion. With respect to caste structure predominantly they are general and OBC categories of families. Overall, the percentage share of General and OBC categories of families are found at 73.0 and 27.0 respectively. Compared to all mouzas, the percentage share of OBC categories of families is higher at ChudangaSahi. The incidence of General category of families to the extent of 100 percent is found at DolamandapSahi and about 93.8 percent of families of ManikarnikaSahi are also General Category families.

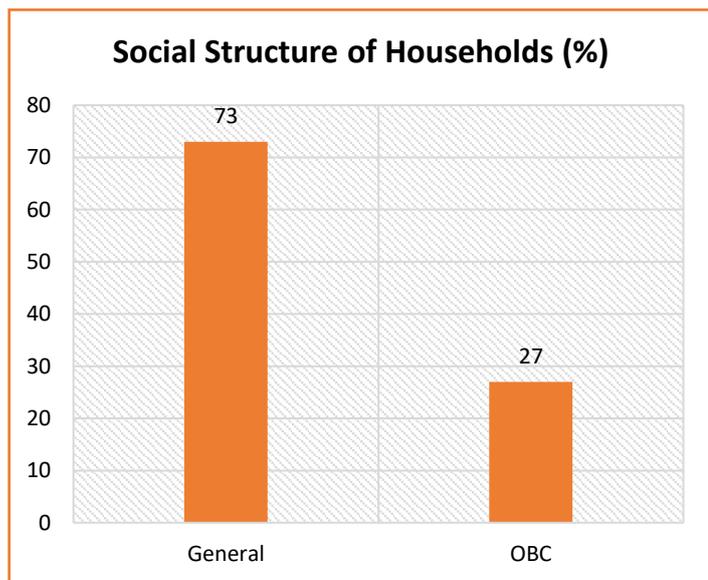

Figure 1: Social Structure of Households (%)

Table 5: Number of Families by Religion and Caste

Religion / Caste	Number of Families											
	BaseliSahi		ChudangaSahi		Dolamandapa Sahi-1		KalikadeviSahi		ManikarnikaSahi		Grand Total	
	No.	%	No.	%	No	%	No	%	No	%	No	%
Hindu												
General	157	79.3	68	58.6	14	100.0	15	93.8	67	69.8	321	73.0
OBC	41	20.7	48	41.4		0.0	1	6.3	29	30.2	119	27.0
Total	198	100.0	116	100.0	14	100.0	16	100.0	96	100.0	440	100.0

3.2 Family Structure

Families are classified on the basis of type of family as nuclear and joint family. As it is observed from the following table, incidence of joint families is more prevalent at BaseliSahi and ManikarnikaSahi and on the other hand, incidence of nuclear families is more prevalent at ChudangaSahi, DolamandapSahi and KalikadeviSahi. Overall, percentage share of nuclear families is slightly higher than joint families. The percentage share of joint and nuclear families stands at 48.2 and 51.8 percent respectively.

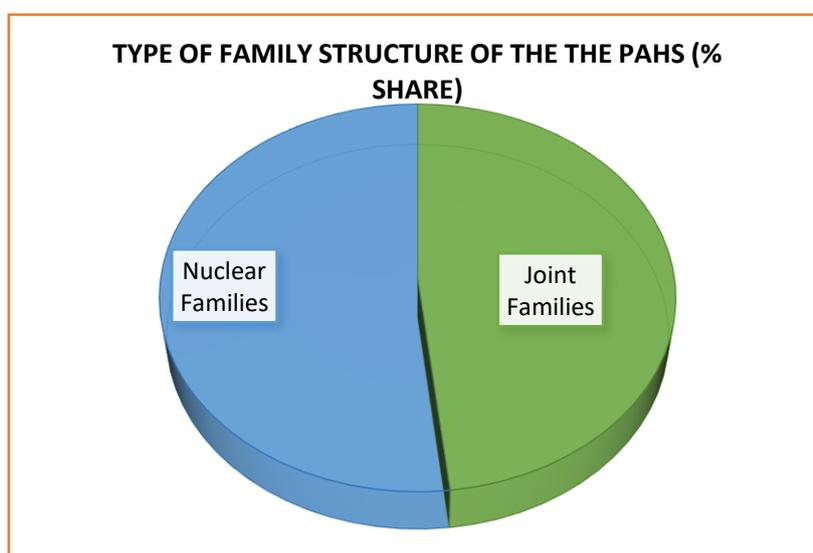

Figure 2: Type of Family structure of the PAHs (% Share)

Table 6: Number of families on the basis of type of family

Type of family	Number of families by Mouzas					
	BaseliSahi	ChudangaSahi	Dolamandapa Sahi-1	KalikadeviSahi	ManikarnikaSahi	All Mouzas
Joint	107	42	1	2	60	212 (48.2%)
Nuclear	91	74	13	14	36	228 (51.8%)
Grand Total	198	116	14	16	96	440 (100.0%)

3.3 Family Size

The number of member present in a family is called family size. In joint families, overall, there are seven members per household as against the same at three persons for nuclear families. The average number of members per household is overall found at five persons and the overall prevalence of male and female members per household is found at three persons under each sex category. Obviously, number of members present in joint families is slightly higher than nuclear families in all mouzas.

Table 7: Average Male members per household

Type of Family	Average number of members per household by Mouzas																	
	BaseliSahi			ChudangaSahi			Dolamandapa Sahi-1			KalikadeviSahi			ManikarnikaSahi			All Mouzas		
	M	F	T	M	F	T	M	F	T	M	F	T	M	F	T	M	F	T
Joint	4	4	7	3	3	6	2	2	4	3	2	4	4	8	5	4	3	7

Grand Total	3	3	6	2	2	4	1	2	1	1	1	3	3	6	2	3	3	5

Note:- M stands for 'Male', F stands for 'Female' & T stands for 'Total'

3.4 Dwelling Condition

Dwelling condition of the families is analysed on the basis of current place of stay of the families which is expressed in terms of own house, and rented house. Majority of families to the extent of 98.0 percent live in their own houses and rest 2 percent of the families live in rented accommodations. About 59.5 percent of the household dwelling units are constructed on plots where the occupants have their own RoRs. Another 8.9 percent of the dwelling units are constructed on lands with sale deeds only. Jointly RoRs and sale deeds are found to be 68.4 percent of the families. This implies out of the total 431 families living in their own houses, 301 household dwelling units, about 69.8 percent are constructed on their own lands. Remaining 31.2 percent who are staying in their own accommodations have encroached lands of Mathas, Shree Jagannath temple, Govt. Lands and even private lands.

Table 8: Current dwelling Condition

Mouzas	Number of families by form of dwelling units			No of household having dwelling units with Possession of RoRs	Sale deeds/ Agreement Paper
	Own House	Rented	Grand Total		
BaseliSahi	195	3	198	170	5

Grand Total	431	9	440	262	39
% Share	98.0	2.00	100.0	59.5	8.9

3.5 Aspects of housing condition

A good and qualitative dwelling unit should have adequate facilities for providing clean environment as well as basic facilities including sanitation. The quality of the dwelling units is assessed in the following table. Out of the total families enumerated, 3.0 percent have separate place for animals in their houses. About 93 percent have bathrooms and toilets in their houses. About 98.3 percent of families have electricity connections in their houses. About 89.3 percent of families use piped water supply for their household uses and remaining 9.8 percent of the families depend on borewells and tube wells for their household water uses.

Table 9: Number of families on the basis of housing amenities

Mouzas	Number of Families						
	Separate place for animals	Bathroom within the house	Toilet within house	Washing Place inside house	Electricity Connection	Piped water supply	Water supply through Boring/ Tube wells / hand Pumps
BaseliSahi	5	194	195	196	197	187	12

ManikarnikaSahi	1.0	100.0	100.0	100.0	100.0	89.6	0.0
All Mouzas	3.0	93.0	93.2	93.0	98.0	89.3	9.8

3.6 Marital Status

The marital status of the household members of all 440 families covered in the study is shown in the following table. As it is revealed from the following table altogether there are 2062 members of which 56.9 percent are married and 36.3 percent are unmarried. Divorcees, separated from respective spouses, widows and widowers are distinctly shown from the analysis point of view. The percentage share of widows and widowers are found at 5.0 and 1.6 percent

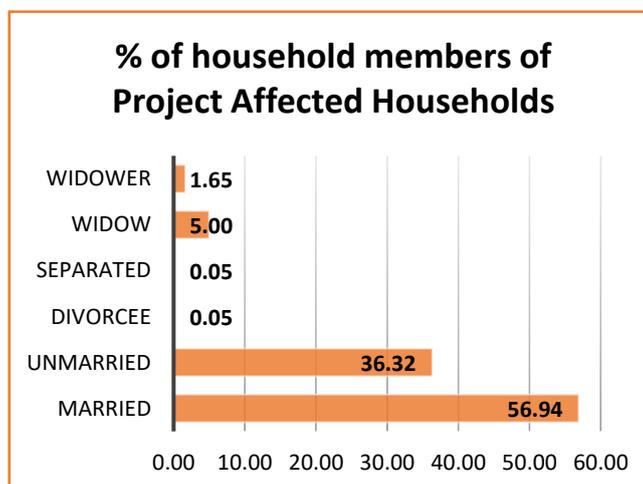

Figure 3: % of household members of Project Affected Households

respectively. The case of divorcees and separated out from their respective spouses is found very much negligible and proportionately their share is less than one percent under each case.

Table 10: Number of families on the basis of marital status

Marital Category	Number of families						
	BaseliSahi	ChudangaSahi	Dolamandapa Sahi-1	KalikadeviSahi	ManikarnikaSahi	All Mouzas	% Share
Married	566	317	4	4	283	1174	56.94
Unmarried	99	240	184	198	28	749	36.32
Divorcee	0	0	0	0	1	1	0.05
Separated	1	0	0	0	0	1	0.05
Widow	50	21	0	2	29	103	5.00
Widower	20	11	0	0	2	34	1.65
All Categories	737	590	187	204	344	2062	100.00

3.7 Educational Qualification

The educational background of the members of PAFs are classified under six categories as upto primary standard, secondary standard, higher secondary/intermediate, graduation, post- graduation and other professional degrees. It is found that majority of household members are upto primary standard which also includes non-school going children below six years of age. Majority of household members to the extent of 30.2 percent have upto primary level of education. This is followed by upto secondary level of education (27.2%), Graduation (19.2%), higher secondary /intermediate (15.2%), post graduate (4.7%) and other professional courses (3.5%).

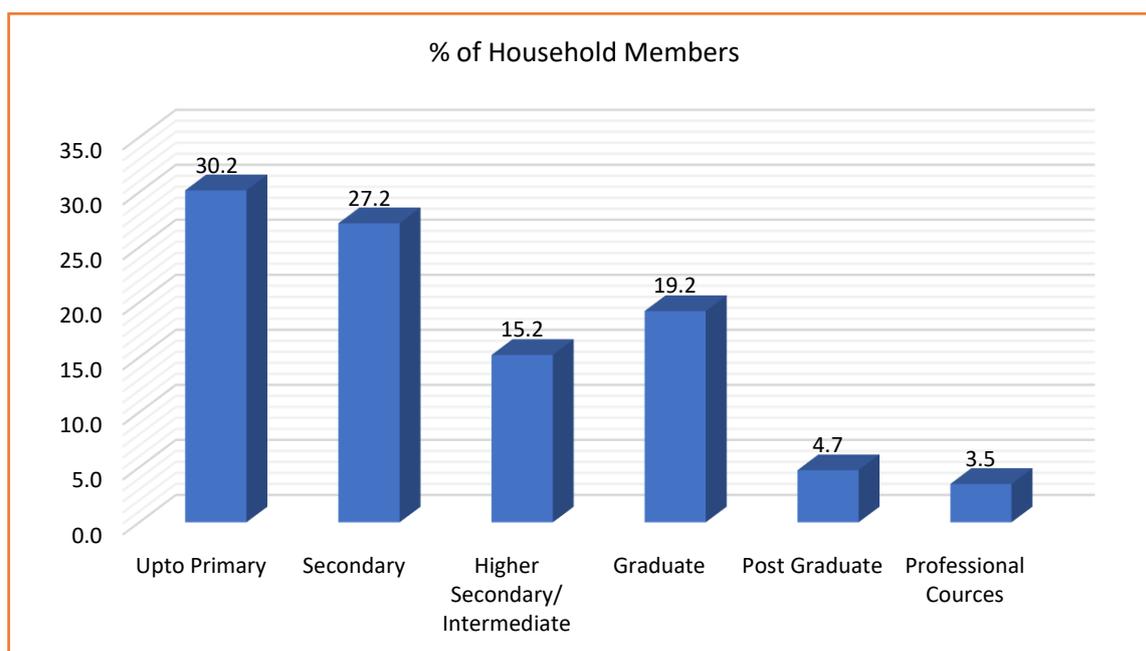

Figure 4: % of Household Members

Table 11: Educational Background of household members

Educational Background	Number of household members						
	BaseliSahi	ChudangaSahi	Dolamandapa Sahi-1	KalikadeviSahi	ManikarnikaSahi	All Mouzas	% Share
Upto Primary	216	184	0	13	139	622	30.2
Secondary	220	212	13	0	66	560	27.2
Higher Secondary/ Intermediate	73	72	0	89	94	314	15.2
Graduate	167	61	174	89	20	396	19.2
Post Graduate	33	28	0	13	20	98	4.7
Professional Courses (ITI, Diploma and other technical degrees)	29	33	0	0	4	72	3.5
All Categories	737	590	187	204	344	2062	100.0

3.8 Age Group and Sex Category

Out of 2062 household members, there are 1148 male members (55.7%) and 914 female members (44.3%). The overall sex ratio among the project affected household members stand at 796 implying that there are 796 female members per 1000 male members. Compared to all age group as shown in the following table 12, the sex ratio is most favorable to females in the age group of 18-30 years. There are about 77.7 percent of household members who are above 18 years of age.

Table 12: Age Group and Sex Category of household members

Age-group	Number of persons by Sex Category				Sex Ratio (No. of females/ 1000 males)
	Females	Males	Total	% Share	
0-4 Years	46	55	101	4.9	824
4-6 Years	14	24	38	1.8	591
6-18 Years	137	184	321	15.6	746
18-30 Years	175	163	338	16.4	1073
30-60 Years	427	552	978	47.4	773
> 60 years	115	170	285	13.8	679
Overall	914	1148	2062	100.0	796

3.9 Main Occupation

Analysis of the main occupations of the project affected families; it is found that out of 440 families, there are 756 household members associated with income generating activities. This implies that more than one person from each household approximated to 2 persons per household are associated with household income generation. Broadly the household main occupations are classified under Business, temple priests/ Sevayats, salary earners and daily wage

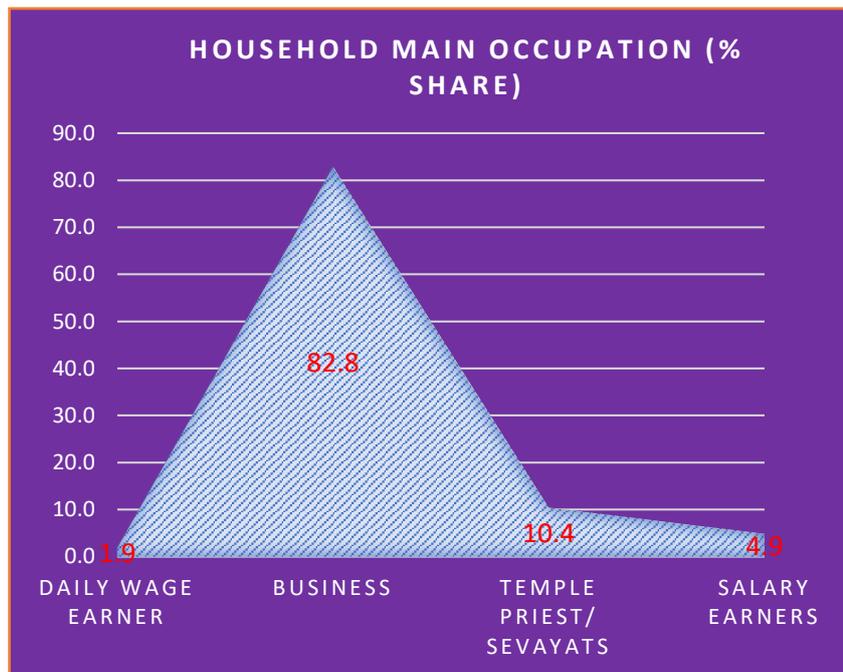

Figure 5: Household Main Occupation (% Share)

earners. Main occupation of families is more skewed in favor of business and about 82.8 percent of the PAFs derive their main income from business. This is followed by temple priests/ sevayats. About 10.4 percent of the PAFs derive their main income by working as priests/ Sevayats in Shree Jagannath Temple, Puri. Salary earning including pensions from Govt. services account the main source of household income for about 4.9 percent of the overall PAFs. Negligible percentage of families to the extent of about 1.9 percent derives their income by working as wage earners. Considering all occupations, the average annual household income is calculated at Rs.429658.00. As, it is depicted from the following table, the average annual household income of salary earners is found at the maximum at Rs. 803840.00 followed by business at Rs. 629187.00. Temple priests and Sevayats on an average receive Rs.156667.00 annually.

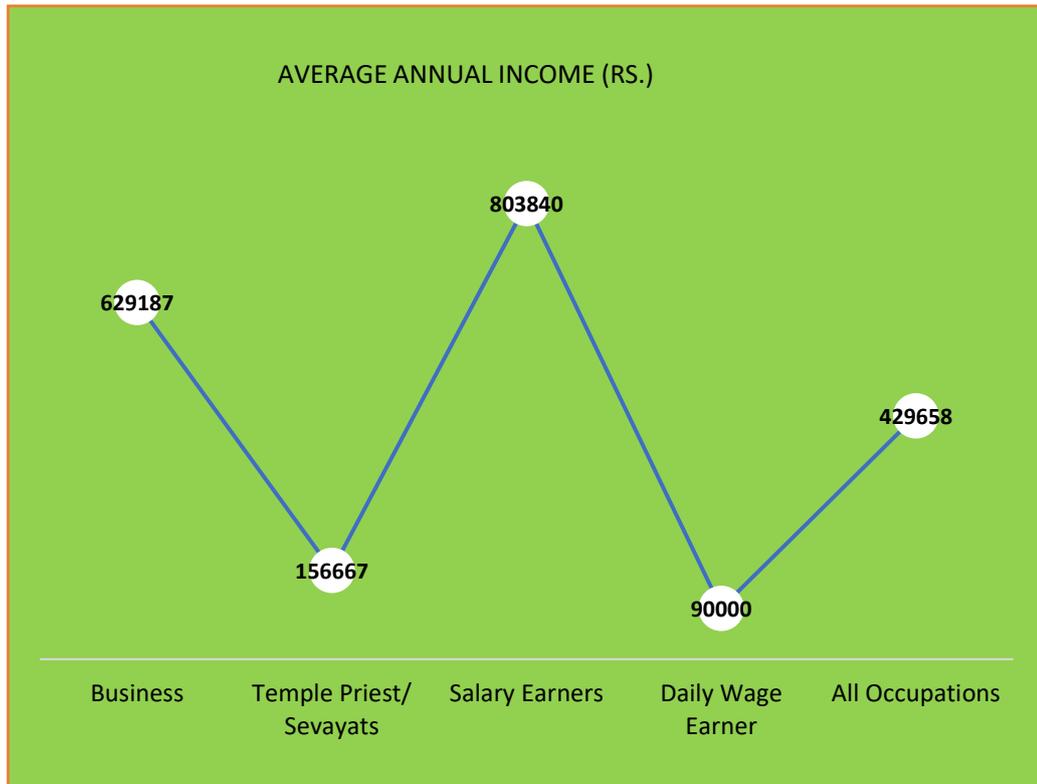

Figure 6: Average Annual Income (Rs.)

Chapter Highlights

- All of the project affected families are Hindus by religion. With respect to caste structure predominantly the PAFs are general and OBC categories of families.
- The percentage share of joint and nuclear families stands at 48.2 and 51.8 percent respectively.
- In joint families, overall, there are seven members per household as against the same at three persons for nuclear families.
- The average number of members per household is overall found at five persons and the overall prevalence of male and female members per household is found at three persons under each sex category.
- Majority of families to the extent of 98.0 percent live in their own houses and rest 2 percent of the families live in rented accommodations.
- Out of the total 431 families living in their own houses, 301 household dwelling units, about 69.8 percent are constructed on their own lands.
- With respect to housing amenities, out of the total families enumerated, 3.0 percent have separate place for animals in their houses. About 93 percent have bathrooms and toilets in their houses.
- About 98.3 percent of families have electricity connections in their houses. About 89.3 percent of families use piped water supply for their household uses and remaining 9.8 percent of the families depend on borewells and tube wells for their household water uses.
- Altogether there are 2062 members of which 56.9 percent are married and 36.3 percent are unmarried.
- The percentage share of widows and widowers are found at 5.0 and 1.6 percent respectively. The case of divorcees and separated out from their respective spouses is found very much negligible and proportionately their share is less than one percent under each case.
- Majority of household members to the extent of 30.2 percent have upto primary level of education. This is followed by upto secondary level of education (27.2%), Graduation (19.2%), higher secondary /intermediate (15.2%), post graduate (4.7%) and other professional courses (3.5%).
- Household main occupation is more skewed in favor of business and about 82.8 percent of the PAFs derive their main income from business. This is followed by temple priests/ sevayats. About 10.4 percent of the PAFs derive their main income by working as priests/ Sevayats in Shree Jagannath Temple, Puri.
- The average annual household income is calculated at Rs.429658.00.

Chapter-4: Assessment of Land Acquisition, Household Awareness about the upcoming project

After a good deal of discussion pertaining to the socio economic and demographic details of the families in the project affected mouza/ villages, present chapter delves into assessing the land acquisition process, household awareness on the process of land acquisition. Section-1 deals with assessment of land acquisition, household awareness about the project and their willingness to participate in the land acquisition process as desired by the project. Subsequent section deals with likely impacts of the project on livelihood of the project affected families. In conclusion part, type of assistance for different types of assets losses as desired by the PAFs are outlined.

4.1 Assessment of Land Acquisition

As per SIA Notification (No. RDM-LAA-PURI-004-2019/28897 R &DM dated 24 Sep 2019), 15.191 acres comprising of 12.5445 acres of private land and 2.6465 acre of Govt. land were planned to be acquired. After the commencement of SIA Study, 0.4596 acres of private land comprising of 0.304 acres of land from BaseliSahi, 0.1475 acres of ChudangaSahi, and 0.008 acres of ManikarnikaSahi were added.

So combinedly, 15.6505 acres

of land as mentioned in the following table are planned to be acquired for the upcoming project. Out of the total 15.6505 acres of land as per SIA to be acquired 13.004 acres are under private ownership and 2.6465 acres are under Govt. ownership. Maximum proportion of land is to be acquired at ChudangaSahi followed by ManikarnikaSahi, and DolamandapSahiBaseliSahi, Kalikadevi Sahi-1. With respect to private lands, average amount of land per PAH stands highest at KalikadeviSahi at 0.122 acres followed by ManikarnikaSahi (0.038) acres, ChudangaSahi (0.033 acres) and DolamandapSahi (0.066) acres. Compared to all Mouzas, maximum number of PAFs are found at BaseliSahi followed by ChudangaSahi and ManikarnikaSahi.

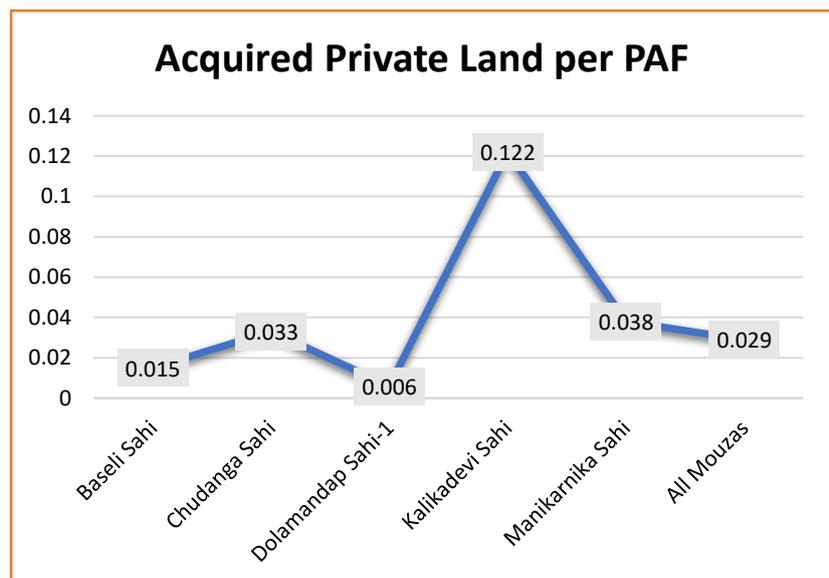

Figure 7: Acquired Private Land Per PAF

Table 14: Amount of Land under Acquisition and the incidence of PAFs

Sl.	Mouza	Amount of Land being Acquired (Acres)			No of PAFs for Private Lands	Affected private land area per PAH
		Private Land	Govt. Land	Total		
1	BaseliSahi	3.332	0.64	3.972	198	0.015
2	ChudangaSahi	4.009	1.28	5.289	116	0.033
3	Dolamandap Sahi-1	0.077	0.074	0.151	14	0.006
4	KalikadeviSahi	1.951	0.52	2.471	16	0.122
5	ManikarnikaSahi	3.635	0.133	3.768	96	0.038
	All Mouzas	13.004	2.6465	15.6505	440	0.029

4.2 Land Acquisition by Kisam of Lands

The classification of 15.651 acres of land on the basis of *kisama* of land suggests that there are eleven *kisamas* of land as Debastahali, Gharabari, Gharabari-1, Gharabari-2, Patita, Rasta, Bagayata and Jalsaya, Chautara, Nayanjori etc. Major *Kisams* include Gharabari, Rasta, Gharabari-2 etc. Bagayats, Chautara, Debasthali type of *kisams* constitute negligible share in the overall *kisams* of lands.

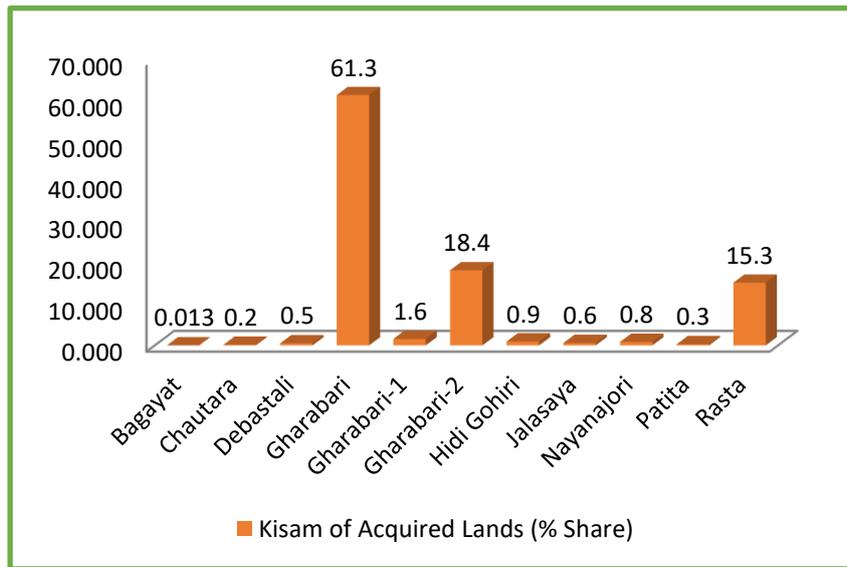

Table 15: Kisam wise lands planned for acquisition

Kisam of Lands	Acquired land area (in Acres)						% Share
	BaseliSahi	ChudangaSahi	Dolamandap Sahi-1	KalikadeviSahi	Manikarnika Sahi	Grand Total	
Bagayat	0.002					0.002	0.01

Grand Total	3.972	5.289	0.151	2.471	3.768	15.651	100.0

4.3 Loss of Assets as a result of Land Acquisition

Range of assets are found individually as well as in combinations on the lands planned to be acquired. As detailed out in the following table, the various assets' categories include home stead lands, houses, shops, lodges, houses and lodges, houses and shops, house and temple, house, temple and shop, lodges and shops, religious monasteries (*Mathas*) etc. The bifurcation of 15.651 acres of land under different assets categories is presented in the following table.

Table 16: Assets Categories on to be acquired land

	Grand Total	3.972	5.289	0.151	2.471	3.768	15.651

4.4 Household Awareness

Out of the total project affected families, about 98.2 percent of the PAFs are aware about the project. This implies nature of project activities being pursued and planned to be pursued are very much transparent and project authorities have undertaken good deal of publicity about the project. Out of five mouzas under study, in two mouzas, DolamandapSahi and KalikadeviSahi, there is 100 percent awareness about the project.

Table 17: Awareness about the upcoming project among the PAFs

Mouzas	No of Families Aware about the upcoming project	Total No. of PAFs	% of Families
BaseliSahi	192	198	97.0
ChudangaSahi	110	116	94.8
Dolamandapa Sahi-1	14	14	100.0
KalikadeviSahi	16	16	100.0
ManikarnikaSahi	94	96	97.9
All Mouzas	432	440	98.2

4.5 Household Willingness

Like any other development project, the upcoming security zone around Shree Jagannath Temple Project” also requires some additional lands to be acquired from private families. It is also important to notice that overall, more than 90 percent of the PAFs are willing to participate in the land acquisition process being planned to be acquired for the project by the project authorities. However, inter street (Mouza) variations are also observed as mentioned in the following table. The willingness to cooperate in the land acquisition process seems relatively lower at KalikadeviSahi. About 62.5 percent of PAFs of KalikadeviSahi have willingness to cooperate in the land acquisition process. Parental property since generations, proximity to Shree Jagannath temple, better business prospects at current location, good deal of income from the tourists by means YatriSeva as elicited by the respondents are some of the prominent reasons for which a section of people are not willing to cooperate in the land acquisition process for the upcoming project.

Table 18: Household willingness to cooperate in the land acquisition Process

Mouzas	No of families willing to allow Govt. to acquire their land and house	Total No. of PAFs	% of Families
BaseliSahi	181	198	91.4

ChudangaSahi	103	116	88.8
Dolamandapa Sahi-1	14	14	100.0
KalikadeviSahi	10	16	62.5
ManikarnikaSahi	95	96	99.0
All Mouzas	403	440	91.6

4.6 Household Benefits of the project

The project is to render beneficial impacts at household level is elicited by overall 50.0 percent of the families. Comparatively maximum proportion of families to the extent of 92.9 percent of DolamandapSahi are of the opinion about the positive impacts of the project at their respective household level compared to 6.3 percent at Kalika Devi Sahi. By comparing household willingness to cooperate in the project (previous Section-4.3) and families anticipated positive outcomes of the project, it can be stated that both are positive correlated with each other. This implies more is the expected positive outcome of the project, more is the willingness to participate in the land acquisition process.

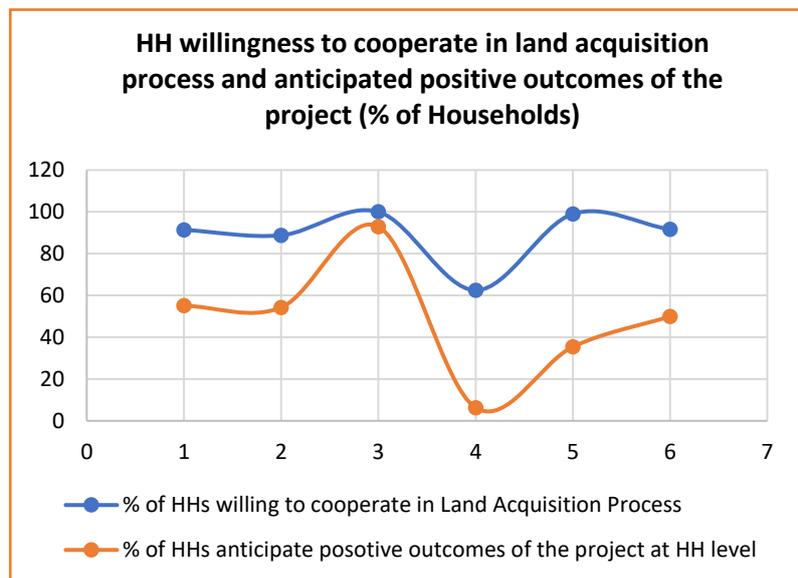

Figure 8: HH willingness to cooperate in land acquisition process and anticipated positive outcomes of the project (% of Households)

Table 19: No of families think that project is beneficial at household level

Mouzas	No of families think that project is beneficial for their families	Total No. of PAFs	% of Families
BaseliSahi	109	198	55.1
ChudangaSahi	63	116	54.3
Dolamandapa Sahi-1	13	14	92.9
KalikadeviSahi	1	16	6.3
ManikarnikaSahi	34	96	35.4
All Mouzas	220	440	50.0

4.7 Likely impacts on livelihoods

With respect to adverse impacts of the project on household livelihood situation, overall 59.1 percent of the families' view that project will have negative impacts on livelihoods as against maximum proportion of families to the extent of 78.1 percent of ManikarnikaSahi. About 58.6 percent of families of BaseliSahi and 56.9 percent of families of ChudangaSahi are also of similar opinions. Despite minimum proportion of families of KalikadeviSahi anticipate positive outcome of the project at household level, still maximum proportion of families don't seem to be worried about adverse livelihoods impacts of the project. Major livelihood issues arise because of losses of shopping space, lodging spaces, structures being used for renting out pilgrims, possible displacement. Sevayatfamilies are also of the opinion that they have to incur more conveyance expenses and also bear the opportunity cost of time utilization to go to temple for their daily works. Besides, they may also have loss of *YatriSeva*.

Table 20: Household opinion on adverse impacts of the project on Livelihoods

Mouzas	No of families think that project is to affect adversely to their livelihood	Total No. of PAFs	% of HHs
BaseliSahi	116	198	58.6
ChudangaSahi	66	116	56.9
Dolamandapa Sahi-1	1	14	7.1
KalikadeviSahi	2	16	12.5
ManikarnikaSahi	75	96	78.1
All Mouzas	260	440	59.1

4.8 Likely Displacement

In addition to 159 families having RoRs, other categories of families who have constructed their home by encroaching Govt. land, Shree Jagannath temple land, Matha land, sale deeds etc. are likely to be displaced. Altogether about 301 families are likely to be displaced. However, with the objective of mitigating the adverse effects of displacement, a well-designed Rehabilitation and Resettlement Plan (R& R Plan) is prepared on the basis of opinions gathered from different strata of PAFs. The R&R plan annexed herewith is prepared by gathering opinions from families, shop keepers, lodges, and religious monasteries (Mathas).

Table 21: Nature of ownership of the affected property and likely displacement

Nature of ownership of the affected property	Number of Families					
	Baseli Sahi	ChudangaSahi	Dolamandapa Sahi-1	KalikadeviSahi	ManikarnikaSahi	Grand Total

Grand Total	149	43	14	18	76	301

4.9 Loss of present earning

As a result of loss of livelihoods assets and livelihoods options, there is to be loss in current income. As it is depicted in the following table, maximum proportion of PAFs to the extent of 47.7 percent of overall families covering all mouzas will incur loss of present income to the extent of 80-100 percent. About 18.8 percent will lose current income between the range 40-60 percent, 17.7 percent in the range of 20-40 percent. The discussion suggests that out of the total

Figure 9: Extent of loss of current income (% of Households)

number of families viewing that the upcoming project is likely to affect adversely to their livelihood sources, very minimum proportion of them view that the extent of loss would be in the range 0-20 percent. Majority of respondents of PAFs are apprehensive about loss of major chunk of their current income.

Table 22: Extent of loss of current income

Extent of Livelihood Loss (%)	No of Families						% Share
	BaseliSahi	ChudangaSahi	Dolamandap Sahi-1	KalikadeviSahi	ManikarnikaSahi	All Mouzas	
0-20	4	3	0	0	6	12	4.6
20-40	8	9	0	0	36	46	17.7
40-60	23	16	0	0	12	49	18.8
60-80	5	19	0	2	10	29	11.2
80-100	77	19	1	0	10	124	47.7
Total	116	66	1	2	75	260	100.0

4.10 Expected Support from the project

In lieu of assets loss and consequently loss of livelihoods assets and option, the PAFs expect a multiple range of compensations as per their requirements. As indicated in the following table, 14 different assistance options are expected by the PAFs. Major five categories of assistance options include cash for land followed by cash for home, cash for shop, plot for lodge, and shop for shop. Other options also include home for home, cash for lodge, rent for shop, plot for home etc.

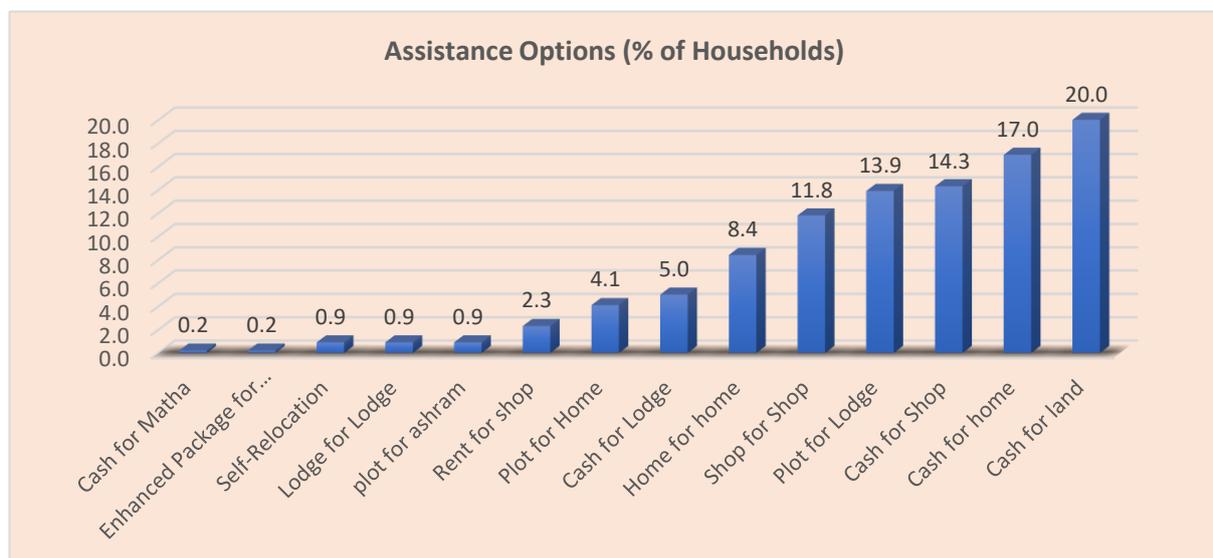

Figure 10: Assistance Options (% of Households)

Table 23: Assistance Option desired by the PAFs

Sl.	Type of Assistance Option	No. of families					Grand Total	% Share
		BaseliSahi	ChudangaSahi	Dolamandapa Sahi-1	KalikadeviSahi	ManikarnikaSahi		
1	Cash for land	46	14	0	3	25	88	20.0
2	Cash for home	45	14	0	0	20	75	17.0
3	Cash for Lodge	19	1	0	0	4	22	5.0
4	Cash for Shop	13	36	0	0	11	63	14.3
5	Home for home	6	7	0	2	17	37	8.4
6	Plot for Lodge	32	8	0	5	7	61	13.9
7	Shop for Shop	12	21	14	3	11	52	11.8
8	Plot for Home	11	5	0	2	0	18	4.1
9	Self-Relocation	3	1	0	0	1	4	0.9
10	Lodge for Lodge	4	0	0	0	0	4	0.9
11	Cash for Matha	0	1	0	0	0	1	0.2
12	Enhanced Package for Sevayat family	1	0	0	0	0	1	0.2
13	Plot for ashram	4	0	0	0	0	4	0.9
14	Rent for shop	1	9	0	0	0	10	2.3
	Total	198	116	14	16	96	440	100.0

4.11 Expected cash compensation

As the assets of PAFs are nearest to the world-famous heritage site, the loss of property either homestead plot, or building or any type of business establishments are viewed very much invaluable compared to any amount of cash or kind compensation. Majority of the PAFs are of the view that they are willing to cooperate with the upcoming project because the project aims at heritage conservation and security enhancement of Shree Jagannath temple. It is in this background maximum possible compensation and R&R package should be offered by the project authorities. Apart from it, displaced families should also be relocated so that they can be able to continue with their religious and cultural faiths and traditions.

Chapter Highlights

- Average amount of land per PAF stands highest at KalikadeviSahi at 0.122 acres followed by ManikarnikaSahi (0.038) acres, ChudangaSahi (0.033 acres) and DolamandapSahi (0.066) acres.

- Compared to all Mouzas, maximum number of PAFs are found at BaseliSahi followed by ChudangaSahi and ManikarnikaSahi.
- Kism wise, percentage share of Gharabari type of lands stands at 77.7 percent followed by Gharabari-II type of lands at 17.8 percent. These two categories account around 95.5 percent of all kismams of land planned to be acquired.
- Range of assets are found individually as well as in combinations on the lands planned to be acquired. Various assets' categories include home stead lands, houses, shops, lodges, houses and lodges, houses and shops, house and temple, house, temple and shop, lodges and shops, religious monasteries (*Mathas*) etc.
- About 98.2 percent of the PAFs are aware about the project. This implies nature of project activities being pursued and planned to be pursued are very much transparent and project authorities have undertaken good deal of publicity about the project.
- Overall, more than 90 percent of the PAFs are willing to participate in the land acquisition process being planned to be acquired for the project by the project authorities.
- Expected positive outcome of the project contributes positively to willingness to participate in the land acquisition process.
- Major livelihood issues arise because of losses of shopping space, lodging spaces, structures being used for renting out pilgrims, possible displacement. Sevayatfamilies are also of the opinion that they have to incur more conveyance expenses and also bear the opportunity cost of time utilization to go to temple for their daily works. Besides, they may also have loss of *YatriSeva*.
- Maximum proportion of PAFs to the extent of 47.7 percent of overall families covering all mouzas will incur loss of present income to the extent of 80-100 percent. About 18.8 percent will lose current income between the range 40-60 percent, 17.7 percent in the range of 20-40 percent.
- Major five categories of assistance options include cash for land followed by cash for home, cash for shop, plot for lodge, and shop for shop. Other options also include home for home, cash for lodge, rent for shop, plot for home etc.

CHAPTER-5: Expected Impacts of the Project and Social Impact Management Plan

The purpose of the SIMP is to identify the environmental and social management and mitigation initiatives required to implement the project in accordance with the provisions enshrined in “The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RFCTLARR, 2013)”. The multifarious impacts of the project associated with the benefits and costs in the sphere of socio-economic, cultural as well as environmental are outlined before preparing the SIMP. On the basis of the areas of concern outlined, the environmental and Social Impact management plan covering the likely mitigation measures are suggested. While suggesting mitigation measures, in relation to the areas of concern in SIMP, the opinion of the respondents and provisions of RFCTLARR, 2013 are taken into consideration. Apart from it, before preparing the SIMP, the perceptions of the local people on the likely impacts of the project are also thoroughly deliberated in the first section of the current chapter. The SIMP is shown in the last section in terms of a SIMP Matrix.

5.1 Social Impacts

Table 24: Likely Social Impacts of the upcoming Project

Social Benefits	Social Costs
<ul style="list-style-type: none"> • Due to the creation of heritage security zone, the splendor and majestic beauty of the Temple would be enhanced and visitors can get a glimpse and enjoy the beauty from a far distance. • Safety and security of tourists and pilgrims will be better promoted. Previously, various monasteries were using adequate space for other than religious activities. Beyond that, anti-social elements were akin to forcefully encroach the space of monasteries to accomplish foul play. • The upcoming project is aiming at conservation of the deities of the monasteries. As a result, tourists will get chances to visit the monasteries’ deities during their circumnavigating the Shree Jagannath temple. • Tourists will get a chance to view antique properties associated with different religious monasteries, if preserved in a planned museum. • As a result of security zone project, the stampedes previously taken place during special festivals of Shree Jagannath temple can be completely averted. • Due to such type of project, there could be traffic control in a more planned and organized manner. 	<ul style="list-style-type: none"> • Some of the Monasteries as explained by their Mahantas were affected by the “Security Project” . they should be well compensated and suitably rehabilitated. Their inmates should also be provided with Vedic and Sanskrit education free of cost. • “Gosalas” currently functioning in some of the monasteries are likely to face inconveniences as they explained. So, alternative arrangements for “Gosalas” should be expeditiously functional.

Social Benefits	Social Costs
<ul style="list-style-type: none"> • Ambulance and fire service vehicles in all exigent situations can move smoothly around Shree Jagannath temple. • The unnecessary rush around Shree Jagannath Temple as a result of existing unplanned business activities would be prevented. • Planned development as envisioned under the project will enhance the heritage value of the city. • Anti-social and unscrupulous people living in different unauthorized locations near to Shree Jagannath Temple area, would be eliminated. • As it is mentioned in the project concept note, due to the emergence of security zone project, the terrorists' activities could be detected much in advance through installation of different surveillance devices around Shree Jagannath temple. Besides positioning of special terrorist prevention squads to safeguard the temple can be easily accomplished as and when any emergency arises. • There is large congregation inside the temple everyday during the time of flag changing rituals, now the devotees can view the flag changing rituals clearly sitting from outside the temple. • Problem occurs due to lack of space during "Bahuda" will be overcome by getting space near Emar Math Chokada. • Queue system for devotees at the time of large congregation can be effectively managed by getting large space around the temple. 	

5.2 Economic Impacts

Table 25: Likely Economic Impacts of the Project

Economic Benefits	Economic Costs
<ul style="list-style-type: none"> • As a result of beautification and cleanliness around Shree Jagannath temple, there shall be more tourists' footfall and consequently there will be more generation of income for the families engaged as tourists'-based service providers. • It is viewed that the new market complex planned as a part of heritage conservation project will be one of the suitable and hassle-free marketing places in the city by which sellers as well as buyers would be benefitted immensely. • There will be more Income generation and economic condition of local business man, Bojhias, Sebaks will increase due to more inflow of devotees. • Distribution of Mahaprasad shall be made in a planned & hygienic manner. • Promotion and products done by local artisans will improve due to inflow of more tourists. • Provision of shoes stand/Locker facility by getting space around temple for devotees will solve the long-standing issues of devotees. 	<ul style="list-style-type: none"> • Due to dismantling of lodges in the 75 metre zone, there may be shortage of lodging space in the short run until all lodges get fully restructured at alternative places as briefed by the local Public. • The owners of the lodge should be well compensated for the building as well as land. Besides, space for reconstruction of lodges should be provided. • The proposal for construction of pilgrim shelters nearest to the Jagannath Temple should also be planned by the Government.

5.3 Cultural Impacts

Table 26: Likely Cultural Impacts of the Project

Cultural Benefits	Cultural Costs
<ul style="list-style-type: none"> • The main boundary Wall of Shree Jagannath temple (MeghanadPachery), would be more visible to the public and pilgrims which was not previously eye-catching to them. • The historical importance and cultural significance of MeghanadPacheri would be realized by the visitors through seeing its artistic majesty, grandeur beauty and gigantic structure. • Owing to more area around Shree Jaganath temple, tourists and pilgrims can spend more quality time which was not possible previously due to congestion and heavy crowd. • Due to more open and free space around Shree Jagannath temple, cultural programme like “Bhajan Sandyas”, “Odishi Dance” etc. on special festivals could be better celebrated. • Toilet, drainage facility for devotees will improve the hygienic condition around the temple area. 	<ul style="list-style-type: none"> • Ritual based head shavings are done outside the temple premises from western as well as southern sides. • Till getting alternative places for the said purpose, there may be temporary inconveniencies. • There should be provison for the creation of a separate venue for this purpose. • There should also be facilities like water and sitting arrangements.

5.4 Environmental Impacts

Table 27: Likely Environmental Impacts

Environmental Benefits	Environmental costs
<ul style="list-style-type: none"> • The project emphasizes dedicated Solid Waste Management Plan which would help to get rid of unhygienic situation in the vicinity of temple area. • Apart from it, there will not be water logging around temple areas. • Due to the upcoming project, there would be more cleanliness around Shree Jagannatha Temple, Puri. • The outsiders' impressions with regard to the cleanliness in the vicinity of Shree Jagannath temple would be better promoted. • Due to possible decongestion around the temple area as a result of the coming project, people will feel relaxed at the temple area. 	<ul style="list-style-type: none"> • After 75-meter security zone, and consequently to be built up concrete area is expected to emit more heat in temple surroundings, as pointed out by the local inhabitants. • It is proposed that there should be mini plantations with mini park as well as eco-friendly and tourist-friendly facilities should be created which will be a better environment conservation practice in the iconic city, Puri.

Section-2

Social Impacts Management Plan (SIMP)

Considering the broad areas of concern, mitigation measures are suggested under SIMP Matrix as shown in table- 27.

Table 28: Social Impact Management Plan (SIMP) matrix

Sl.	Areas of Concern	Mitigation Measures	Responsible Agency
A	Social Issues and concerns		
1.	Some of the households doing business from their homes by opening shops are likely to lose their income and employment in the short run.	Alternative shopping spaces may be arranged under R/R Plan.	Govt. of Odisha
2.	Possible loss of vending space for street vendors.	A vending zone may be created.	Puri Municipality / Govt. of Odisha
3.	Protection of indigenous knowledge for security enhancement and Pilgrim control / management	Temple Security Committee may be formed by involving local experienced Sevayats and Monasteries' Managers.	Temple Administration/ Govt. of Odisha
4	Provision of hospitability to the tourists and pilgrims with a cheaper rate.	Sufficient accommodation facilities with differential tariff provisions with local hospitability and honesty along with trained authorized guides.	Temple Administration/ Govt. of Odisha
5	Loss of social bonding and fraternity	Creation of community centres at the place of relocation.	Govt. of Odisha
6	Vedic and Sanskrit education free of cost to the aspiring children	For protecting Sanskrit/Vedic education, a similar type of institutional set up may be created for furthering Sanskrit and Vedic studies.	Govt. of Odisha
7	Loss of "Gosalas"	Promotion of a Gosala to relocate the existing cows at different monasteries.	Govt. of Odisha
B	Economic Concerns		
8	Shortage of lodging space as a result of dismantling number of lodges in 75-meter security zone.	Lodge owners need to be encouraged to create lodging space by constructing lodges at alternative places in both sides of Grand Road by receiving appropriate compensation.	Govt. of Odisha

Sl.	Areas of Concern	Mitigation Measures	Responsible Agency
9	Accommodation problem for women pilgrims in the month of kartik (Habisiyalies).	More accommodation space for Kartik Pilgrims need to be created at convenient location with subsidized tariff structure.	Govt. of Odisha
C	Cultural Issues/ Concerns		
10	Ritual based head savings are done outside the temple premises from western as well as southern sides.	A Head saving place is to be created with water facility and sitting arrangements.	Govt. of Odisha
D	Environmental Concerns		
11	Concrete flooring from MeghanadPacheriupto 75-meter boundary is expected to emit more heat which may have adverse impact on the temple.	Heat absorbent flooring as well as boundary designs should be introduced. Green fencing along with concrete/stone fencing may be introduced to minimize heat radiation. Grass transplantation, lawns etc should be done along the tourists' paths.	Govt. of Odisha

Chapter-6: Proceedings of Public Hearing Meeting

The Social Impact Assessment Study for Land Acquisition of project “Development of Security Corridor around Shree Jagannath Temple, Puri” was notified u/s 4(1) of RFCTLA R & R Act-2013 vide letter No- 28897, dated-24/09/2019 , A Public Hearing Meeting (PHM) u/s 5 of RFCTLA R & R Act-2013 and U/r 14 of RFCTLA R & R rule 2016 was organised at ‘Niladri Bhakta Niwas’, Badadanda, Puri on 9th October 2020. The project affected persons particularly of BaseliSahi, ManikarnikaSahi, KalikadeviSahi, DolamandapSahi and ChudangaSahi had participated in the said meeting. The participants had shared the views sequentially in seven sessions. The meeting continued from 9.30 AM to 7.30 PM. Added to it, taking into account of Covid-19 related quarantine norms for the affected patients if any, a special virtual session through Google Talks was also organized. Accordingly, those people who could not attend the Public Hearing Meeting at the venue, they participated through online.

At the very beginning of Meeting, a prayer dedicated to Lord Jagannath was made by all the participants. Subsequently, The Land Acquisition Officer (LAO) explained the reasons behind the Public Hearing Meeting. He requested the Additional District Magistrate (ADM), Puri to preside over the meeting. The Sub Collector, Puri; Deputy Administrator, Shree Jagannath Temple Administration; Assistant Executive Engineer(R & B), Additional Executive Officer, Puri Municipality were also present in the Public Hearing Meeting. The representatives of CTRAN Consulting Ltd, Bhubaneswar were present in the Public Hearing Meeting. In each of the session, The Draft Report of Social Impact Assessment Study for Security Zone Development Project was presented in a brief form.

Session-1: BaseliSahi, Ward No-2

1. Shri Biswa Mohan Mishra, legal heirs of Saraswati Mishra mentioned that his livelihood is dependent on rents received by sharing out shop spaces and providing tourist services. A part of his income was squeezed during 2015 land acquisition process and now it will be further squeezed during current land acquisition process. He states that lawful land acquisition compensation should be provided to the land loser in land acquisition process.
2. Shri Divya Kumar Deba mentioned that due to the Security Zone Project, the livelihood of street vendors who were previously selling within the 75-metre zone is threatened. Some of the street vendors who now operate at beyond 75 metre area, there is continuous conflict of street vendors with back side shopkeepers. The back-side shopkeeper on the plea of business loss, opposes the street vendors activities in front of their respective shops. In this background, a vending zone may be constructed nearby temple area in Badadanda.
3. Shri KartikSahu mentioned that he had his business as a street vendor for last 23 years and now his business is lost. He suggested the R and R package under the project should have some provision for the welfare of the street vendors.
4. Smt. BasantaMohapatro, legal heirs of Lokanath Acharya and a resident of ward no-4 suggested that the land acquisition for the project should be done with lawful land acquisition compensation and R & R package for land losers.
5. Shri Debendra Kumar Mohanty, a resident of BasuliSahi lauded the project initiated by the Govt. of Odisha around Shree Jagannath Temple, He said that the project will help for the security of the temple and it will enhance the beauty of Puri and also indicated that due to the ongoing demolition drive, some of the buildings are still to be demolished although vacated by the land seller. Due to such incomplete demolition, anti-social activities are increasing in the neighbourhood area. So, required demolition process may be expedited. Further he added that one residential house of Mr Mohanty is coming within the 75 meters of the project. Lawful land acquisition and R & R package should be provided to him for acquisition of his land.
6. Shri Gobinda Chandra Mohanty, Secretary of "Shree Jagannath BhinnakshyamaSanstahn" thanked to the Govt. of Odisha for inception of project Security corridor around Shree Jagannath Temple. He also stated that the inflow of pilgrim increased few folds since the development of project around Shree Jagannath Temple before lockdown restriction. Further he said previously, "Shree Jagannath BhinnakshyamaSanstahn", his NGO was operating its office in the 75-metre zone. Now, due to demolition of that building, the organisation office is shifted to a distant place. The main activity of the organisation is to provide all possible assistance to the People with Disability (PWD) who are coming as a tourist or pilgrim to Jagannath Dham. The organisation expresses that due to shifting of their office, they are not able to render optimum services to PwD tourists and pilgrims. The organisation requested project authorities to provide at least minimum office space nearby temple area, so that the organisation will be able to deliver best possible services to the people with disability. Following proposals were suggested by Shri Mohanty
 - Shree Jagannath Temple Administration and District administration should take initiatives for the people with disability pilgrims for hassle free Darsan of lord

Jagannath. The number of vehicles provided for transport of people with disability should increase as the tourist inflow is increasing day by day.

- “NiladriGowsala” should be constructed for the displaced cattle’s from various Mathas around Shree Jagannath Temple.
 - One Cemetery for carcasses of animals should be constructed at a suitable place outside of the Puri town for cremation of Stray cattle’s and other animals.
7. SaratJaysingh, representative of NGO mentioned that on the top of continuously increasing tourist inflow and particularly sharp spikes of tourists’ inflow on special occasions, the creation of security zone project is indispensable and timely for the crowd control and management. He stated that Puri town is religious nerve centre of the world. He stated that during different time period in each year, lakhs of tourists come to Puri and the street vendors also provide innumerable shopping services to the tourists and considering such services of the street vendors, a dedicated vending zone may be constructed under the R/ R package. Besides, budget and very low-cost Tourist Rest Houses need to be created for providing staying facilities to budget tourists. He stated that for this purpose, existing BagalaDharmasala may also be renovated and refurbished. For rehabilitation and resettlement of the Mahantas of different Mathas (monasteries), the existing provisions of Temple Administration Act and Revenue DepartmentActs may also suitable refer. Presently, it is observed that there is drainage overflow with 75 metre zone area due to clearance of structures by the District Administration, which should be checked. There should be “Gowsala” within 10-15 Kms radius of Puri town, as security of cows is a religious practice as per the cultural traditions in Puri town. Besides that, there should be cremation ground for the carcasses after the death of cattle’s and stray animals.

President-cum- Additional District Magistrate, Puri submitted that there are various rehabilitation measures under consideration of Govt. of Odisha like Street Vending Zone, Shelter house of cattle’s etc. he also added that the drainage and other issues created due to clearance of structures are temporary in nature. District Administration is not disturbing the core area of Mathas such as Deities, Sanctum Sanctorum, Gadi Ghara and Samadhu Stall etc of Mathas, only clearing the commercial and open spaces of Mathas. District Administration will follow all measures as prescribed in RFCTLAR & R Act-2013 for determination of Market value of land as well as determining R & R award to the project affected persons.

After the end of first session, the Deputy Administrator, Shree Jagannath Temple Administration presented vote of thanks and reiterated that in the land acquisition process for security zone project, land acquisition compensation and R & R assistance as declared by Govt. of Odisha keeping in mind of all the category of affected persons as per RFCTLA R & R Act-2013 will be beneficial to all.

Session-2: BaseliSahi, Ward No-3

1. Shri Debendra Kumar Mohanty, a resident of Basulisahi stated that the project is very much timely taking into account the needs of time. The design of the project is well thought-out by the government of Odisha. He stated that more than 80% land required for the project already purchased by the Govt. and remaining 20% land should be acquired as early as possible. Some peoples are spreading rumours around the project area for which some people are opposing it. He also stated the remains of the broken buildings are not yet cleared in certain parts. Efforts should be taken to clear the debris for convenience of local people.
2. Shri Rudra Prakash Panda stated that the Grand Road Puri, is under National High Way category. Resultingly the land acquisition process should follow both of the Acts – Land Acquisition process for highways as well as RFCTLARR Act, 2013. He suggested including the survey of minors, ladies and peoples with disabilities in the final publication of Social Impact Assessment. Further he suggested the land acquisition and rehabilitation and resettlement should be done as per the RFCTLAR & R Act-2013.
3. Smt. Minati Panda, a resident of Basulisahi stated that she wants the development of Shree Jagannath Temple through this project but due to this project they have lost their house, which was nearest to the temple. Since generations they were enjoying their house. She requested that they should be provided alternative plots or home soon after the 75-metre zone. She mentioned that no other land would be comparable to the land nearer to Shree Jagannath temple.
4. Shri Saroj Kumar Biswal mentioned that the security zone project should have functional much earlier. Since the project has started late, so the families who are losing land should accept the compensation package as decided by the project authorities and cooperate for the earliest completion of the project. He requested to provide jobs to unemployed youth of land loosing families and should be provided alternative plots near the Jagannath Temple.
5. Shri Raghunath Gochhikar stated that he and his other stake holders are going to lost 3 lodges and 21 shops from the project “Development of Security Heritage Corridor around Shree Jagannath Temple” . He added that the land acquisition compensation amount for the land acquired in 2015 is still deposited in the Court as the land looser approached for enhancement of land acquisition compensation. Due to the project he will be lost his lodging house and shops which are nearest to the temple. He requested that he should be compensated being provided a land inside Bagala Dharmasala being planned for allotment to the affected people. In response to Shri Gochhikar’s views, the president-cum-Additional District Magistrate, Purimentioned that while rehabilitating the lodges the built-up area will be taken into account and there is a separate R/R policy for the affected lodges.
6. Shri A. K Rout, representative of Laxmi Bhaban situated in Basulisahi mentioned that people’s opinion should be accepted in the process of land acquisition. He stated that the families who are settled for the purpose of business around Shree Jagannath Temple are displacED from the project. They should be rehabilitated at a place equivalent to the commercial importance of the place and also emphasised on the R & R package based on the built-up area of the lodge not on the permissible built up area of lodge. He questioned

the absence of Project Affected Family list in the booklet provided in the public hearing meeting. He suggested that due to strategic location of the acquired area, both National Highway Act and RFCTLAR & R Act 2013 should apply for land acquisition. He suggested whatever best will be obtained from any law, should be applied here for land acquisition. He further suggested that before demolition of their houses, there should be provision of resettlement of people and the place of resettlement should be known by the people whose houses are planned to be demolished under the project.

President-cum- Additional District Magistrate submitted to the house that the list of Project Affected Families is in draft publication of Social Impact Assessment survey done by CTRAN consultancy which is available in this meeting as well as in the Office of Land Acquisition Officer, Security Zone, Municipality Puri, Sub-Collector Office Puri and Tahasildar Office Puri. The booklet which provided to each attendee is brief summary of the draft publication of Social Impact Assessment survey. He added that multiple acts cannot be applied for land acquisition of a single project. RFCTLAR&R Act-2013 is applying in this project for maximum benefits of the project affected persons. Regarding built up area confusion of the representative of affected person, He submitted that we are considering the total built up area for the R & R assistance, only permissible built up area would used for permission of construction of new lodges at new sites approved by PKDA, Puri.

7. Shri Badri Narayan Mahasuar stated that he had applied to the District Administration for direct purchase of land as Govt. of Odisha announces 10% incentive on the handover of land within 30 days of publication of notice u/s 4(1) of RFCTLAR&R Act-2013 but the district administration did not purchase the land from us. He demanded for better land acquisition compensation and R & R assistance for the acquisition of land.

President-cum- Additional District Magistrate submitted to the house that as the land is under judicial scrutiny so district administration unable to purchase the land through the way of direct purchase.

8. Shri Damodar Gochhikar resident of Basulisahi stated as the land acquisition compensation amount for the land acquired in 2015 is still deposited in the Court as the land loser approached for enhancement of land acquisition compensation. Due to the project he will lose his lodging house and shops which are nearest to the temple. He hopes District administration should follow all the laws associated with land acquisition under RFCTLA R & R Act-2013.
9. Shri Jagadish Prasad Kar and Shri Purna Chandra Panda are suggested to acquire land with due procedure of law where the land is pending in different Courts.
10. Shri Harekrushna Khuntia mentioned that the said project is very much essential for which land acquisition process should be completed at the earliest as 80 % land is already purchased by the district administration through the way of direct purchase.

After the end of session, the Deputy Administrator of Puri Temple Administration presented vote of thanks and stated that from the security point of view such a project was highly essential and people have cooperated it wholeheartedly.

Session-3: ManikarnikaSahi, Ward No-4

1. Shri Debendra Nath Brahmachari stated that some of the land recorded in the name of Shree Jagannath MahaprabhubijeShreeksetramarfat Mandir parichalana Committee, which are in possession of savayats and the land settlement under uniform policy of Shree Jagannath Temple Administration is pending. Such Sevayats of Shri Jagannath temple would be affected and the R/ R policy has not any special focus for the lands pending for settlement in the name of the Sevayats. Project authorities may introduce some provisions for smooth working of Sevayats.
Deputy administrator (Revenue), SJTA submitted to the house that the pending settlement under uniform policy of such lands which are going to be affected in this project are under active consideration of settlement committee of SJTA.
2. Shri Surendra Chandra Mania, a rented shop keeper of Bada Odia Matha shops located near Ganduchourachhaka stated that the project is very good and he has whole hearted cooperation for the project. Due to this project, he has lost his shop. He expects that the project authorities would be kind enough to relocate at least a 10ft*10ft room beyond the 75-metre zone.
Land Acquisition Officer (R & R), Security zone submitted in this regard that Puri town is limited within 2km of range and maximum commercial units are centred near the Shree Jagannath Temple. It is the call of the time to expand the town for better management of livelihood and life dependent on Shree Jagannath Temple. For resettlement of the shops, there are provisions in R & R policy for this project approved by Govt. of Odisha for construction of new market complex within reasonable range from Shree Jagannath temple and the entire displaced shop keepers will be allotted shops as per their Resettlement and rehabilitation provisions.
3. Rabi Narayan Mahapatra of Manikarnikasahi stated that he had not received any land acquisition compensation in land acquisition of 2015 for Nabakalebar. He also pointed out that the land was not recorded in his name. It was recorded in the name of Shree Jagannath MahaprabhubijeShreekshetramarfat Mandir Parichalana committee. He added that he is welcoming the project for the development of Puri town and has no objection in the process of land acquisition for the project. He requested to compensate him for "Bharat Mahala" and that structure was cleared by the District Administration on unsafe ground of structure.
4. Shri BibhutiBhusan Behera, a resident of Manikarnikasahi intimated to the house that he was not interested to sell his land to the District Administration through the way of direct purchase but he has no objection for land acquisition of the project. He added that rightful compensation and R & R assistance should be provided to the land losers.
5. Shri Raghunath Panda, president of trust of KapalMochan Dev mentioned that the land acquisition process should be completed at the earliest and the land acquisition compensation for the land of KapalMochan Dev should be deposited with the trust of KapalMochan dev.

President-cum- Additional District Magistrate submitted to the house that as the land of KapalMochan Dev is an endowment land. The land acquisition compensation will be deposited as per the instruction of Hon'ble Commissioner of endowments, Bhubaneswar.

After the end of session, the Deputy Administrator of Puri, Shree Jagannath Temple Administration presented vote of thanks and appreciated people's cooperation for the project.

Session-4: ManikarnikaSahi, Ward No-9

1. Shri Raghunath Mohapatra complained that he had a lodge "Bharta Mahal" within 75 metre zone. In 2015 land acquisition process, a part of the building was demolished and due to improper compensation, there is ongoing court case. Meanwhile, in the ongoing land acquisition, the lodge is completely demolished. He requested for the quick disposal of the case.
2. SmtRinki Mohapatra had constructed house on a plot for which she did not have RoR. As that house got demolished, she became homeless and staying in a neighbourhood on rent. She is expecting that there should be some housing assistance from the project R/R scheme. President-cum- Additional District Magistrate submitted to the house that she should approach to the land acquisition Office, Security Zone in written about her grievances for proper disposal.
3. Shri PurastamSamantara stated that there are two plots 670 and 678 of Khata No-711 of Manikarnikasahi on which GelibaiThakurani is situated. Total area recorded in the name of Geli bai Thakurani is Ac. 0.130. recorded tenant in current settlement are GelibaiThakuranimarfatsamastaGramabasipakheNarasingh Mohanty & others. He complained that out of area Ac. 0130 an area of 0.015 of plot 678 was earlier recorded in the name of his ancestors but in last settlement it is recorded in the name of Geli Bai Thakurani. The land acquisition compensation for plot no-678 should be awarded in his name.

Sub-collector-cum- Administrator (R & R) submitted to the house that Mr. Samantara should file revision case in Commissioner Court for correction of settlement issues. The land acquisition award should be done as per the Record of Right published u/s 11(1) notification of RFCTLA R & R Act-2013. If there will be any order regarding change in Record of Right of the plot No-678 at the time of land compensation award. It will be honoured at that time.

4. SmtManjulata Rout was getting her livelihood by doing business as a street vendor within 75 metre zone. She has lost her business completely. She is expecting that there should be some provision of livelihood restoration among the street vendors in the Rehabilitation and Resettlement plan for the vendors.
5. Narayan Mahasuar, president, Trust Board of Geli bai Thakurani lauded the security corridor project around Shree Jagannath temple. This is a very good project. There should be provision of rightful land acquisition compensation and R & R assistance as per law. He suggested widening the main three roads of Manikarnikasahi which leads towards the Shree Jagannath Temple for better crowd management. He also demanded land acquisition compensation of Geli bai Thakurani in the name of Geli Bai Thakurani Trust Board.

After the end of session, the Deputy Administrator of Puri Temple Administration presented vote of thanks and appreciated people's cooperation for the project.

Session-5: KalikadebiSahi, Ward-12

1. Shri Sangarm Bastia, rented shop keeper of NarasinghAcharyMatha mentioned that the famous Khaja tradition of Puri has started decades back by the Khaja shops functioning from NarasinghaAcharyMatha premises. Due to this project all khaja shops at NarasinghaAcharyMatha are lost. The project authorities should think of a “ Khaja Complex” for the product promotion of “Puri Khaja”.
2. Shri Basudeba Rath , rented shop keeper of NarasinghAcharyMatha mentioned that due to this project, there is loss of business as well as employment. Steps should be taken for the the restoration of business.
3. Shri Bijay Kumar Jena, a street vendor suggested to rehabilitate the displaced street vendors from the project area. He also acknowledged receipt of Rs. 15,000/- R & R assistance and requested to release the rest amount.
4. Shri Prabhas Kar was running a restaurant from a rented room in ManguMatha. Due to the demolition of that Math, he has lost his business and at present he is in uncertainty about his future employment and livelihood.

After the end of session, Additional Executive Officer, Puri Municipality gave vote of thanks by quoting from Mahabharat that land acquisition was first started at Khandav Van for the creation of Indraprastha, the capital of Pandavas.

Session-6: DolamandapSahi, Ward No-15

1. Shri Mahaprasad Nayak is employed by running a shop in the premises of Radha Ballabh Matha. He says that after Foni cyclone, followed by demolition of houses in the 75-metre zone and Covid-19 related lock down of temple, the business community in Puri have been pushed into livelihoods uncertainty. In this background, the R/R plan of the project should be very much helpful for the business community to revive their business.
2. Shri Narayan Singhari runs a tourist service provider office in the premises of Radha BallabhaMatha. In his opinion the R/R plan should be very much friendly to the business community.
3. Shri Brahmananda Nayak and Shri Jagannath Nayak rented shop keepers of Radha BallabhaMatha stated that rehabilitation and resettlement should happen first and it should be followed by house demolition.
4. Shri Himanshu Sekhar Mishra, a student of Radha BallabhaMatha representing Mahantaof Radha BallabhaMathastated that those mathas which are already broken, the ancient relics obtained from these Mathas should be well preserved. Besides, some minimum income for these mathas should be ensured so that the Mathas could be able to maintain minimum services.
5. Shri Kailash Chandra Nayak suggested for rehabilitation and resettlement of shop keepers as per existing law.

After the end of session, Additional Executive Officer, Puri Municipality gave vote of thanks by saying that land acquisition is very much indispensable for development projects.

Session-7: ChudangaSahi, Ward-17

1. Shri NabakishoreSahu stated that the people of Puri are very much peace loving. For the sake of the Security Zone Project, people have voluntarily sold their land and about 90 percent of RoR holders' families have already sold their land as required by the project. Considering the benefit sides of the project, he has given his views that land acquisition upto 100 metres might have been better.
2. Shri Narayan Ramanuj Dash, Mahanta of Uttara PraswaMatha emphasized on the construction of "Gowsalas" in the periphery of Puri town. He further mentioned that a lodge with all legality was functioning under the aegis of his Matha. Since that lodge was demolished as it was within 75 metre zone, an alternative place should be given to the matha for the construction of lodge, as it is planned for other lodges as per the provisions of the project's R/R Policy.
President-cum- Additional District Magistrate submitted to the house that the R & R assistance provided to Mathas as per bipartite agreement between the Mahanta of Matha and the District Administration on the instruction of Hon'ble Commissioner of endowments, Bhubaneswar, Odisha. The redevelopment of Matha will include the type of losses occurred at the displaced site.
3. Dr.Bijay Ramanuja Dash,Mahanta of KattackiMatha stated that the project is very much timely and essential considering the day to day increase in the tourist inflow. He stated that keeping in view the project necessities, it was necessary to demolish Maths and it has been done. But, ancient relics and artefacts should be well preserved. He further emphasized that from religious perspectives, the pilgrims' circumnavigation around Shree Jagannath temple is very much interwoven with the Math culture in Puri.
4. Shri Lalatendu Mohanty on behalf of TrimaniMathaand Srikanta Dash on behalf of Gopal Ballahavapointed out that the project is very much unique and it was a necessity also and he requested to dispose of the pending case of Gopal Bhaban.
5. Monaj Kumar Pradhan stated that the rightful land acquisition compensation and R & R assistance should be provided to the project affected persons.
6. Shri Raghunath Gochhikar stated that the land acquisition compensation amount for the land acquired in 2015 is still deposited in the Court as the land looser approached for enhancement of land acquisition compensation. Due to the project he will loose his lodging house and shops which are nearest to the temple. He requested that he should be compensated being provided a land inside Bagala Dharmsala being planned for allotment to the affected people. In response to Shri Gochhikar's views, the president-cum-Additional District Magistrate, Puri mentioned that while rehabilitating the lodges the built-up area will be taken into account and there is a separate R/R policy for the affected lodges.
After the end of session, Additional Executive Officer, PuriMunicipality gave vote of thanks. He mentioned that households, business houses, lodges and the different Mathas have well cooperated in the land acquisition process.
